

**Thursday · July 29 · Session 1 (Morning) · Browns' Gas**

**Common Duct Electrolytic Oxyhydrogen**

**Larry Oja**

First patent (Apparatus for the Electrolytic Production of Hydrogen and Oxygen for the Safe Consumption #3,262,872 July 26, 1966) holder William A. Rhodes, Physicist wrote:

*Of all the elements hydrogen and oxygen should hold no secrets. Yet, in this example they do and have been troublesome. (3/12/2000)*

Over the past forty years many have postulated various opinions explaining these "secrets". The accumulated literature has both facts and myths concerning these secrets of "Brown's Gas". Time only will confirm all facts and dispel all myths!

With the death of Yull Brown in 1998, the recognized foremost authority today on Brown's Gas is George Wiseman.

Since 1993, they have developed a superior electrolyzer. It operates silently, is a third the weight uses half the power and produces twice the gas as a traditional electrolyzer. At half the cost of the traditional machine the ER 1200 that you see here is an efficient, economical and safe machine.

This presentation will give a brief history, and explain what Brown's Gas is thought to be. Discuss its many uses and "myth-conceptions" and its role in our future, such as a torch gas in current applications in industry, as a fuel enhancer for increased gas mileage, for muscle relaxation and pain relief, the neutralization of radioactive waste, creating "new water", ore reduction and many other uses.

**Conference Lodging Facilities**

**Sleep Inn**  
10676 South 300 West  
South Jordan, UT 84095

Hotel Reservations:  
**(801) 572-2020**

Be sure to request our special *TeslaTech Conference rates!*

**THIS CHARMING HOTEL** is newly remodeled as of the 1st quarter of 2001! When you stay with us, you will enjoy new beds, carpet, furniture, artwork, wall vinyl.

**WINNER OF CHOICE HOTELS INT. 2002 GOLD AWARD!**

**Hotel Amenities**  
Our award winning hotel amenities include:

- Complimentary Continental Breakfast
- Indoor Heated Pool
- Whirlpool
- Cable TV with HBO
- Data ports
- Fax and copy services
- Guest laundry
- VCR's in every room

**Limited space... Please register by July 15!**

**Located just off I-15 (Exit 297)**
