

2004 ExtraOrdinary Technology Conference

Salt Lake City, UT --§-- July 29-Aug1

CONFERENCE PROGRAM

Jointly Conducted by *TeslaTech* and the *Institute of New Energy*

Leading Edge Technology...

Featuring....

- Larry Oja*
- Glen A. Gordon*
- Bruce M. Forrester*
- Tony Cocilovo*
- Konstantin Meyl*
- Thomas Valone*
- Kiril Chukanov*
- Bruce Perreault*
- Alan Francouer*
- Sonne Ward*
- Moray King*
- Robert Patterson*
- John Balfour*
- Dale Pond*
- Dan Davidson*
- Hal Fox*

Conference Site: Miller Free Enterprise Center
Salt Lake City Community College • Larry H. Miller Campus
9750 South 300 West • Sandy, UT 84070

Driving from The North:

Take I-15 South to Exit 298 (9000 South). Exit right (west) onto 9000 South and proceed to 450 west (1st light). Turn left (south), go to 9120 South & turn left (east), go to 300 West (frontage road) & turn right (south). Proceed 6 blocks south along frontage road.

Driving from the South:

Take I-15 North to Exit 297 (10600 South) after exiting, turn right (east) and proceed to State Street. Turn left (north), go to light at 10000 South (Centennial Way) in Sandy. Turn left (west), go under I-15 & turn right (north) on 300 West (frontage road). Proceed 2 blocks north along frontage road.

Miller Campus Directory

- MPDC - Miller Professional Development Center
- KGMC - Karen Gail Miller Conference Center
- MFEC - Miller Free Enterprise Center**
- MATC - Miller Automotive Training Center
- MCPC - Miller Corporate Partnership Center

Check out our website at : [http:// www.teslatech.info](http://www.teslatech.info)

2004 ExtraOrdinary Technology Conference

Miller Free Enterprise Center • Salt Lake City • July 29-August 1, 2004

CONFERENCE PROGRAM OVERVIEW

VIDEOTAPES WILL BE AVAILABLE AFTER CONFERENCE!

TeslaTech, Inc reserves the right to make changes to this schedule without notice.

Thursday • July 29

Session 1 (Evening) • Brown's Gas

5:00PM: **Larry Oja** - Common Duct Electrolytic OxyHydrogen

7:00PM: *Conference Evening Social*

Friday • July 30

Session 2 (Morning) • Alternative Medicine & Health

8:00AM: **Glen A. Gordon, MD** - Exploring the Limits of Pulsed Electromagnetic Healing

9:30AM: **Bruce M. Forrester, Jr** - Building Multiple Wave Oscillators

11:00AM: **Tony Cocilovo** - The Photon Stimulator

Session 3 (Afternoon) • Zero-Point and Quantum Physics

1:00PM: **Konstantin Meyl** - Neutrino Power and the Existence of Scalar Waves

2:30PM: **Thomas Valone** - Zero-point Energy Extraction From The Quantum Vacuum

4:00PM: **Dr. Kiril Chukanov** - Quantum Technologies

Session 4 (Evening) •

6:00PM: *Conference Evening Social*

Saturday • July 31

Session 5 (Morning) • Innovative Energy Technology

8:00AM: **Bruce Perreault** - Nu Energy™ Power Technologies

9:30AM: **Alan Francouer** - PermMag Motors & Vapor Systems

11:00AM: **Sonne Ward** - Implosion Technology... Past, Present & Future

Session 6 (Afternoon) • Alternative Energy Technology

1:00PM: **Moray King** - Pulsed Plasma Anomalies

2:30PM: **Robert Patterson** - Vortex Mechanics, Free Energy, and the Ram Implosion Wing

4:00PM: **John Balfour** - A Community Without Electric Bills

Session 7 (Evening)

6:00PM: *Conference Evening Social*

Sunday • August 1

Session 5 (Morning) • 21st Century Technology

8:00AM: **Dale Pond** - The Keely Legacy: Sympathetic Vibratory Physics

9:30AM: **Dan Davidson** - Shape Power As Universal Resonance

11:00AM: **Hal Fox** - Magnets and Space Energy

Thursday · July 29 · Session 1 (Morning) · Browns' Gas

Common Duct Electrolytic Oxyhydrogen

Larry Oja

First patent (Apparatus for the Electrolytic Production of Hydrogen and Oxygen for the Safe Consumption #3,262,872 July 26, 1966) holder William A. Rhodes, Physicist wrote:

Of all the elements hydrogen and oxygen should hold no secrets. Yet, in this example they do and have been troublesome. (3/12/2000)

Over the past forty years many have postulated various opinions explaining these "secrets". The accumulated literature has both facts and myths concerning these secrets of "Brown's Gas". Time only will confirm all facts and dispel all myths!

With the death of Yull Brown in 1998, the recognized foremost authority today on Brown's Gas is George Wiseman.

Since 1993, they have developed a superior electrolyzer. It operates silently, is a third the weight uses half the power and produces twice the gas as a traditional electrolyzer. At half the cost of the traditional machine the ER 1200 that you see here is an efficient, economical and safe machine.

This presentation will give a brief history, and explain what Brown's Gas is thought to be. Discuss its many uses and "myth-conceptions" and its role in our future, such as a torch gas in current applications in industry, as a fuel enhancer for increased gas mileage, for muscle relaxation and pain relief, the neutralization of radioactive waste, creating "new water", ore reduction and many other uses.

Conference Lodging Facilities

Sleep Inn
10676 South 300 West
South Jordan, UT 84095

Hotel Reservations:
(801) 572-2020

Be sure to request our special *TeslaTech Conference rates!*

THIS CHARMING HOTEL is newly remodeled as of the 1st quarter of 2001! When you stay with us, you will enjoy new beds, carpet, furniture, artwork, wall vinyl.

WINNER OF CHOICE HOTELS INT. 2002 GOLD AWARD!

Hotel Amenities
Our award winning hotel amenities include:

- Complimentary Continental Breakfast
- Indoor Heated Pool
- Whirlpool
- Cable TV with HBO
- Data ports
- Fax and copy services
- Guest laundry
- VCR's in every room

Limited space... Please register by July 15!

Located just off I-15 (Exit 297)

Check out our website at: <http://www.teslatech.info>

TeslaTech, Inc.

296 E Donna Drive, Queen Valley, AZ 85218

(520) 463-1994

Welcome to the wonderful world of ExtraOrdinary Technology!

Some people believe that this information should be suppressed... However, the *Institute of New Energy* and *TeslaTech* have teamed up to bring this info to YOU!! The arrangements are somewhat different than in the past in that we are not having it at a hotel. Instead, we will be holding it at a local campus, and have negotiated special rates at a nearby hotel. This will make it even more affordable for members to attend. We are also combining forces with the *Institute of New Energy* in order to produce the best conference possible.

Space is limited at the conference, so early preregistration is highly desired. *TeslaTech* members will receive a preregistration discount if their **expiration date is after August 1, 2004**. We encourage you to renew when you preregister. The earlier you preregister, the bigger the discount. *INE* members in good standing will be eligible to receive this discount as well.

I heartily encourage you to come to this conference. We have a great lineup of speakers **and hardware!** This is a great opportunity to meet the inventors and learn from them first-hand — face-to-face — about their discoveries and experiments! Sure, a lot of information is on the internet... but nothing can replace the opportunity to touch and see a working prototype... in some cases production models are available for you to take home!

This is YOUR opportunity to MEET the Speakers like Sonne Ward, Dale Pond, Bruce Perreault, Tom Valone and many others... with **WORKING DEVICES DEMONSTRATED**. Be there and get to inspect these devices **UP CLOSE!** Then spend the evening discussing it with the inventor... and other researchers like yourself!

We are determined to accomplish our mission of providing a credible platform for the independent researchers to release their information. Your financial support through membership dues and book purchases is critical to the success of this mission. Even if circumstances do not allow you to attend the conference, we pray that you at least consider being a member and receive our quarterly magazine — *ExtraOrdinary Technology!*

The energy and medical problems of this world are reaching a critical mass. We have a choice to either passively stand by and suffer, or we can seek out ways to conserve and tap into new resources. I sincerely pray that you stand by me in these turbulent times and help support this cause in the pursuit of new technology to free humankind.

With Great Pleasure,

Steven R. Elswick

Publisher - ExtraOrdinary Technology

BUILDING MULTIPLE WAVE OSCILLATORS

Bruce M. Forrester, Jr

Bruce is convinced that the solution to “Free Energy”; “Tesla Technology”; “Anti-Gravity”; and “Alternative Medical Technology” can be found by actually building the devices in question rather than reading or just talking about them! What this means is that “hardware, not hot air” is the key to success in being handmaidens to victory in ushering in the New Age for our planet Earth.

To this end, Bruce has constructed hundreds of Multiple Wave Oscillators, using an open source design that was featured in the Oct/Nov/Dec 2003 *ExtraOrdinary Technology* (V1N4). In this hands-on presentation, Bruce will examine component by component the Multiple Wave Oscillator he builds. In addition to detailed construction techniques, Bruce will illustrate some of the basic application methods that many Multiple Wave Oscillator researchers use to achieve various responses. (This is NOT to be construed as medical advice!)

This is an excellent opportunity for Tesla Coil builders to pick up some construction tips for their devices too. Bruce will present some of his true experiences building Multiple Wave Oscillators over the past twenty years as a method of understanding “Tesla Coils” and some of the implications that go with them (Hint: Free Energy, Medical Longevity, Radi-

Exploring The Limits Of Pulsed Electromagnetic Healing

Glen A. Gordon MD

In 1980 we received the first *investigational device exemption* issued in the US to study low level laser effects in soft tissue injuries. A sizable anecdotal experience with these devices by Soviet bloc athletes was reported, however FDA stated they had no biologic effect. Using freshly harvested surgical specimens and a spectrophotometer we studied skin transmission from near infrared through 904 nm. That model failed to demonstrate meaningful transmittal of monochromatic light radiation causing us to study the device for other sources of EM radiation to explain our observations in red blood cell models and clinical application(s).

It appeared the circuitry emitted a pulsed EM field (PEMF) of slower intrinsic frequency that held promise as the bioactive mechanism. We surmised near and IR

radiation had a rapid intrinsic frequency that was absorbed and converted to heat by the skin, reflecting the substantial absorption bands skin proteins, etc present.

In 2001, due to the paramagnetic nature of free radicals and antioxidants, we proposed PEMFs role in steric positioning as the rate enhancing mechanism to provide neutralization of free radicals. Time varying equilibriums between these species underscore injury, illness, aging, and death. PEMFs influence on enzymatic activity has now been verified by Goodman and Blank (*J Cell Physiol*, 192(1); 16-22, 2002, who further identified electromagnetic responsive areas on survival and repair (GH) DNA loci. This suggests living systems use PEMF to dually accomplish inflammation control while stimulating synthesis of proteins affecting survival and healing.

In the 1970's the concept of light and color therapy were in their rudimentary stage of development. At that time, in addition to a dearth of written research materials, the available equipment was inadequate for human experimental needs. Tony determined that it was necessary to construct a device that could deliver pulsed and colored light to the iris via an optic fiber which would not be damaging to the eye. After some unsuccessful preliminary research, Tony accidentally found the light source he was looking for, and soon he had a device he could work with. He called it the Photon Stimulator.

The Photon Stimulator is now available in a kit consisting of:

- **Pulsed light generator** w/adjustable flicker rate

Photon Stimulator

**Using Safe Full Spectrum Light to
Balance Meridians and the
Autonomic Nervous System (ANS)**

Tony Cocilovo

- **Set of 12 (Dinshah) color gel slides**
- **6 feet of high quality optic fiber**
- **Comfortable applicator** (tip diameter 2.2mm).
- **Complete manual** includes operating instructions, color attributes, and some acupuncture points.

This state of the art device enables you to apply pulsed and colored light to the surface of the body. Russian research found that living tissue conducts light along acupuncture meridians. In fact, the light conducting ability of the human body exists only along the meridians. Light treatment directly on acupuncture points is safe and effective.

This presentation will provide an overview of operational aspects and a variety of current therapeutic applications.

Institute for New Energy

3084 E. 3300 South • Salt Lake City, UT 84109-2154

801-466-8680 • FAX: 801-466-8668

The *Institute for New Energy* (INE) is a non-profit organization founded for sharing information on world wide new energy events, research, and developments. New energy technology will soon affect your life and the future of businesses worldwide. The INE monthly newsletter *New Energy News* (NEN) provides members with business and technical insights into the development and commercialization of clean, low cost, new energy systems;

8 Reasons to Join INE

- 1) The INE provides unique opportunities to share ideas and concepts in a supportive environment;
- 2) All INE members receive an e-mail copy of *New Energy News*, the monthly INE newsletter reporting on new energy conferences and events (written in English only);
- 3) All INE members can submit articles to be published world-wide in the *New Energy News*.
- 4) The INE sponsors annual technical meetings;
- 5) The INE provides the latest information on the several new-energy technologies that will change the way the world produces and distributes energy;
- 6) The INE provides opportunities to make contact with other researchers, developers, and inventors to explore new and exciting energy business opportunities; and
- 7) The INE website (www.padrak.com/ine/) will soon have special webpages that will be available to only INE members.
- 8) Annual global INE membership dues is only \$35 for 12 emailed issues of the *New Energy News*!

Be Informed!!!

Get the
New Energy News

Journal of New Energy

An International Journal of New Energy Research

The *Journal of New Energy* is a quarterly publication containing professional papers from scientists, engineers and inventors from all over the world, dealing with new forms of energy and the research that is required to bring them to a stage of commercial development. Our goal is to change the way the world creates and distributes energy for our increasingly technological society. JNE also publishes the Proceedings of various scientific symposia dealing with new energy and cutting-edge science.

A Special Offer for INE Members... \$35.00 Single Issue

Regular Price: \$150 for 4 issues • \$45 for single issue

Quantum Technologies

Kiril Chukanov

The concept of ‘quantum energy’, or the energy of space, may seem puzzling at first. After all, there is no such thing as free energy. Or is there? For decades people were observing the mysterious natural phenomenon of ball lightning which radiates an enormous amount of energy in form of light and heat, making it a source of abundant free energy.

Artificially created ball lightning can produce a quantum free energy in form of photon radiation or electricity. The efficiency and the energy level of the radiated quantum photons depend on the scale of the process. The quantum energy process becomes a “stand-alone” process for microwave input power bigger than 100 KW.

I have built two quantum energy devices – Angelina-IV and Angelina-V., however they are not “stand-alone” QE devices. They produce a lot of Free Quantum Energy (mostly in form of photon-radiation), but we cannot convert this energy into the form of electricity in order to create a closed loop device.

The problem here is in the scale of the QE generator. Our research shows that QE becomes very efficient after some level of the input microwave power-after about 100 KW microwave power. After this power level QE generators can produce thousands of times more QE power than input power.

Neutrino Power and the Existence of Scalar Waves

Reproduction of scalar-wave effects Tesla had measured 100 years ago.

Prof Konstantin Meyl

It will be shown that scalar waves, normally remaining unnoticed, are very interesting in practical use for information and energy technology for reason of their special attributes. The mathematical and physical derivations are supported by practical experiments. The demonstration will show:

1. the wireless transmission of electrical energy (a rebuild of Tesla’s experiment),
2. the reaction of the receiver to the transmitter (just used in transponder-engineering),
3. Free Energy with an over-unity-effect,

fect, (if there is a source of field-energy in the environment to go in resonance with),

4. transmitting of scalar waves with 1.5 times the speed of light (as Tesla had shown 100 years ago)
5. the inefficiency of a Faraday cage to shield scalar waves.
6. the transmission over a long distance showing it is not a near-field-effect
7. the modulation of a passive receiver send signals to another receiver of scalar waves

See Proof of Tesla’s Wireless Theory!

Feasibility Of Zero-point Energy Extraction From The Quantum Vacuum For Useful Work

Thomas Valone, PhD, PE

Today we face a destabilizing dependency on irreplaceable fossil fuels which are also rapidly dwindling. A real need exists for a portable source of power that can compete with fossil fuel and its energy density. A further need exists for a fuelless source of power which, by definition, does not require re-fueling. One possible source could be *zero-point energy* (ZPE).

A major feasibility study by Integrity Research Institute placed its emphasis on the practical potential for ZPE energy conversion, especially in view of recent advances in nanotechnology, than in the theory. With primary reference to the works of Casimir, Pinto, Mead and Milonni, key principles for the proposed

extraction of energy for useful work are identified and analyzed. These principles fall into the thermodynamic, fluidic, mechanical, and electromagnetic areas of primary, force-like quantities that apply to all energy systems.

A search of ZPE literature reveals that these principles also apply to the quantum level. The most feasible modalities for the conversion of zero-point energy into useful work, such as the fluctuation-driven transport of an electron ratchet, the quantum Brownian nonthermal rectifiers, and the Photo-Carnot engine are also explored in more detail. Specific suggestions for further research in this area conclude this presentation with a section devoted to summary, conclusions and recommendations.

TeslaTech, Inc

The Home of "ExtraOrdinary Technology"!

296 E Donna Drive • Queen Valley, AZ 85218 • (520) 463-1994

Become a Member TODAY!

Emerging technologies in such fields as energy, medicine, health, and physics are in constant danger of being overlooked or suppressed by what Nikola Tesla referred to as the "organized opposition" — a loose coalition of intellectual and economic forces.

TeslaTech, Inc was specifically created to champion and nurture advanced concepts and products in science and technology. Our publications and conferences provide independent inventors and researchers with a credible platform to introduce new, advanced concepts, inventions and discoveries to the world -- many of these concepts originated with Tesla at the turn of the 20th century. Research materials related to science and technology are available to the general public through our catalogs.

ExtraOrdinary Technology is our quarterly membership magazine containing technical articles, tips, and news about *the leading edge of our Scientific Revolution!!!*

ExtraOrdinary Technology focuses on:

- **Power and resonance** •
Tesla Technology
- **Low temperature plasma** •
GEET Technology
- **Electrogravitation** •
Brown/Hamel Technology
- **Electrified water** •
Brown's Gas Technology
- **Magnetic healing** •
Biomagnetic Technology
- **Electromedicine** •
Rife/Bare Technology
- **New Health Supplements** •

...as well as new technologies that we can't even imagine at this time!

We strive to bring you practical *how-to* information you can use today to save time, money, and energy... as well as the latest information from independent researchers!

All truth passes through three stages:

- First, it is ridiculed;
- Second, it is violently opposed; and
- Third, it is accepted as self-evident.

Arthur Schopenhauer (1788-1860)

Nu Energy™ Power Technologies

Bruce Perreault

When light falls on the junction of a crystal diode, it, like a solar cell, acquires a forward-biased voltage. What this shared characteristic tells us is that the solar cell and the crystal radio diode are fundamentally the same and allows us to convert ambient radio frequency radiation (“static noise”) into useful electrical current. To efficiently convert this source of energy into useful current, a diode has to be built that will respond to minute voltages. This is exactly what the Perreault *ionic diode* accomplishes.

The Perreault Ultra Fuel Cell consists of two 4" square electrodes. The anode is an alloy screen. The cathode is a stainless steel screen. Sandwiched between the electrodes is a sheet of ordinary heavy-duty paper towel. The assembly that houses the plates is PVC sheet. No expensive “PEM” or platinum is present. This is only made possible by using the Perreault Capture Capacitor Effect.

Perreault’s Ultra Fuel Cell demonstrates an economical method of electrolysis, producing hydrogen and oxygen ions. Using this fuel cell in reverse mode recombines the hydrogen and oxygen ions, producing electricity and water. Its unique electrochemical system allows hydrogen and oxygen to be stored in two separated solutions. Unlike conventional fuel cells, energy is stored in the solutions. The capacity of the system is determined by the size of the solution tanks, the system power is determined by size of surface area of the cell plates. The safe storage of hydrogen gas in a non-explosive liquid environment is realized with this fuel cell system.

Interference Disc Generators and Other Energy Saving Ideas

Alan Francoeur

As early as 1986, Al began his research into interference disc generators (also know as *stationary armature generators*). As part of his research, has replicated the Gary Motor which gave him an opportunity to learn more about magnetic forces and their interactions in a motor. He has built three interference disc generators and is currently working on the fourth generation prototype. This generator is quite unique in that it simulates a moving magnetic field by shielding and unshielding the magnets on the armature. As the magnetic field’s intensity is constantly changing, the coils “see” a moving field, and thus create an electric current.

Conventional generators are reversible in that they can act as motors or generators depending on whether current is fed to the coils, or drawn off. This duality comes

at the price of having to spin a heavy armature. Interference disc generators are more efficient than standard generators because the only moving parts are the “interference” disks which are much lighter than armatures, however, they cannot be used as motors. If current is fed to the coils, the energy is wasted as heat and the disks do not rotate.

Alan has not confined his efforts to electrical devices. Even before it became fashionable due to the recent rise in gasoline prices, Al has been keenly interested in high mileage vehicles. He has dedicated much time and effort developing a fuel vaporizer to increase mileage. Al is releasing the plans for this fuel saving device (referred to as the ALF Vaporizer System) to the public and will be demonstrating it at the conference.

Implosion Technology... Past, Present, and Future

Sonne Ward

Range and charging speeds are a couple of the keys to widespread acceptance of electric vehicles. Sonne’s *Braxton Reaction Battery Charger* effectively addresses these issues. He will demonstrate its effectiveness using a variety of power tools and... his electric motorcycle!

This is but one of the devices Sonne will be demonstrating. His *Accurate Injection Unit* which may **reduce fuel consumption by 30%** is sure to draw increases interest this year. Specifically designed for multi-port fuel injected engines, it has been in continuous use logging over 300,000 miles since 1990 in Sonne’s vehicles. It’s performance is responsible for Sonne’s World Record for Mileage with 88.5mpg. On the market for years, it is being reevaluated on new vehicles!

Sonne’s Starship Module Home is designed to be totally off the grid. Solar energy is used in a variety of ways from providing heat to providing electric power. Most innovative of all has been his “Cosmic Cooler” which not only served as a “walkin refrigerator”, but miraculously regenerated produce placed in it. This led to the discovery of LP10.

LP10 is a remarkable substance that appears to have rejuvenating and regenerative effects. Constant use of it since its discovery in the early 90’s has caused Sonne’s hair to grow, and darken. Ancient scars have disappeared, giving Sonne a more youthful appearance. His latest innovation has been to convert LP10 from a liquid into a granular solid which is a fructose sugar. Whether your interest is energy or health, this is one presentation you do not want to miss!

TeslaTech Books By Mail

Home of the Best Kept Secrets of Science

Living Water

Victor Schauberger & Secrets of Natural Energy

by *Olaf Alexandersson*

This is the first book in English to describe the profound and pioneering work of Viktor Schauberger—an Austrian naturalist who pointed the way to a completely new understanding of the vast potential of natural energy. By studying and imitating nature, Schauberger developed a number of ingenious machines which could revolutionize farming, horticulture, forestry, and aircraft propulsion. In addition, Schauberger's work could very well contain the keys to clean new sources of energy! (162 pp) ISBN 0-946551-57-X 360001 - Living Water 17.95

Living Energies

Exposition of Concepts Related to the Theories of Viktor Schauberger
by *Callum Coates*

From his precise observations of Nature, Schauberger pioneered a new understanding of water as the most important life-giving and energy-empowered substance on the planet. *Living Energies* describes, in depth, Schauberger's concepts and applications such as:

- Water as a carrier of vital energy information
- Trees... biocondensers of energy between earth/sun
- How self-cleansing rivers nourish the landscape
- How the future of the world depends on the replanting of natural forests
- Increasing soil fertility with energy, not chemicals
- Revolutionary agricultural implements
- The invention of a free energy heater-cum-cooler
- Jet engines and gravity-defying UFO-like machines
- Home power generators

It is a basic manual for understanding some of the key processes of Nature. (320 pp) ISBN 0-946551-97-9

500003- Living Energies 26.95

The Man Who Tapped the Secrets of the Universe

by *Glenn Clark*

Walter Russell was known in his own time as the modern Leonardo da Vinci, the most versatile man in America... musician, illustrator, portrait painter, architectural designer, sculptor, business practices advisor, champion figure skater, natural scientist, philosopher and author. In this famous biography of Walter Russell, (also known as the man who tapped the secrets of the universe) we meet the man, the artist and the man of action. Walter Russell in his own words discusses the nature of developing the genius inherent within, and reveals his personal "Five Laws of Success." (57pp)

500045- Man Who Tapped Secrets ... 5.00

The Secret of Light

by *Walter Russell*

...Within the secret of light is vast knowledge yet unrevealed to man. Light is

all there is; it is all we have to deal with, but we do not yet know WHAT it is. The purpose of this message is to tell what it is.

Today's civilization has advanced far in knowing HOW to deal with matter but we do not know WHAT matter is, nor the WHY of it. Nor do we know what energy, electricity, magnetism, gravitation and radiation are. Nor do we know the purpose of the inert gases and what they are. Nor do we know the structure of the elemental atoms nor the gyroscopic principle which determines that structure. Nor are we aware of the fact that this is a two-way continuous universe of balance in all effects of Motion and not a one-way discontinuous universe. Nor have we even yet heard of or suspected the most important of all principles in physics, the voidance principle and the mirrors and lenses of space which are the cause of illusion in all moving things.... - *Walter Russell* (hdbk; 330 pp)

500044-The Secret of Light 15.00

Tesla's Car and Other Free Energy Devices

Compiled by *Steven R. Elswick, BSEE*

If you are serious about building free energy devices, then this book is for you! In addition to several different construction plans, there is plenty of background information on three different basic types of alternative energy devices. Some devices are designed merely to be more efficient than conventional technology, others claim to be overunity in the traditional sense of the word. Before you buy the mainstream physics claim that alternative energy is not possible, you should at least read the material in this book that indicates otherwise.

Supporting accounts and photos included wherever possible. This is a great book to beef up your technical library. **You will not need to be a rocket scientist to value this book.** Source material, patents and plans are right from Steve's classified file drawers. (121 pgs; GBC)

290010- Tesla's Car/Free Energy 29.95

ALTERNATIVE ENERGY RESEARCHER'S REFERENCE MANUAL

Magnetic Motors & Generators

Compiled by *Steven R. Elswick, BSEE*

Through this book you will learn:

- How to build magnet motors
- How to select materials
- How magnetic motors work

Discover the work of Joe Newman, Howard Johnson, EV Gray, and other researchers that worked on over-unity devices that may have worked. Gain better understanding of magnetics and how they work. Source material, patents and plans are right from Steve's classified file drawers. (121 pgs; GBC)

290009- Magnet Motors/Gen 29.95

Pulsed Plasma Anomalies

Moray B. King

Abruptly pulsing corona or plasma appears to activate a cohering interaction with the zero-point energy (ZPE). Numerous researchers have observed energetic anomalies as well as element transmutation triggered by pulsed plasma stimulation. An overview of experimental work includes the following research.

Ken Shoulders can repeatedly launch micron size, plasmoid entities that resemble ball lightning, called *electrum validum* (EV) or charge clusters. A single strike onto a metal target produces an array of new elements and unusual isotopes in the crater region.

Adamenko's team in the Ukraine has recently developed a protocol for producing numerous new elements in a metal target via a pulsed, supercompression discharge.

Joseph Papp's noble gas engine will be reviewed with the hypothesis that abrupt discharge induces plasma nuclei of the inert gas mixture to form clusters which trap energy directly from the vacuum.

Peter Graneau's experiments involving abrupt discharge in water demonstrate anomalous force, anomalous energy and plasmoid formation.

Paulo and Alexandra Correa's experiments with their abnormal glow discharge tubes demonstrate anomalous energy production in the precursor of any electrical discharge event. They emphasize the importance of suppressing the electric arc the follows the precursor.

Edwin Gray's pulsed corona tube offers a simple experiment for the hobbyist. It exhibits a cylindrical geometry which manifests a "scalar" compression pulse when the ions in the corona abruptly jerk toward the central electrode inducing a vacuum polarization wave onto the electric circuit that exhibits "cold current".

The hypothesis that abrupt motion of nuclei in a plasma (or corona) coherently activates ZPE, applies to many inventions and experiments yielding excessive energy.

Vortex Mechanics, Free Energy, and the Ram Implosion Wing

Robert A. Patterson

Would you like to get 3 TIMES your current mileage? Robert's ram implosion wing on RIW) the back of a V-8 van (GVW 5750 lbs) achieves that much on a regular basis... and some crude, but astounding tests last year indicates it is capable of much more!

In independent test runs Aug. 13, 2003, using a Dodge Caravan (V-6, GVW 2726 lb), results of 100+ mpg were achieved! The driver weighed 295 lbs and the copilot had a weight of 195 lbs. The tanks were topped off, and the van driven 20.2 miles at 65mph with the AC unit on. When we arrived back at the fueling station we were amazed to find that we could only squeeze 0.2 gallon back into the tank, we even picked the hose up and tried to pour the extra gas from the line into the tank but it all ran back out onto the ground. That's 101 mpg!!!

The true "American Dream" is ... not having to pay exorbitant electric bills every month!

A BIG step in achieving energy independence can be found at GreenWood Ranch Estates, **the first privately funded solar-powered development in the US** which is entirely off the electric power grid. A mild climate with lower energy needs, clear skies for maximum solar power, no-worry sustainable homes, and a no-hassle location all come together at GreenWood Estates in northern Arizona.

The homes are being designed to be sustainable and provide years of maintenance-free service. Autoclaved aerated concrete, popular in Europe for decades, will be used to build homes that are earthquake, insect, and mold

A second trip consisted of a 59 mile round trip but this time we were only able to squeeze 0.1 gallon back into the tank... this translates into 590mpg!

To date no attempts have been made toward reproducing this particular experiment, thus it remains a singular event. However, I believe that in order to maintain such high mileage's the RIW will require computer automation to adjust pitch angle and height of the wing on the fly.

The Ram Implosion Wing (with a wingspan of 6.5') will be demonstrated and its operation explained. In addition Robert will introduce his other work on with quantum electrogravitics and free energy!

A Community Without Electric Bills!

John Balfour

resistant, non-combustible, and have high insulation value.

GreenWood Ranch, at an elevation of 4,200 feet, has a climate cooler than the deserts, and warmer than the mountains. Its location in northwest Arizona puts it in the region with the most hours of sunshine and the fewest days of fog in the United States.

The community lies in a broad valley surrounded by exquisite mountain views. Vegetation ranges from grassland to juniper and pinyon pine woodland. This variety of habitats supports an abundance of wildlife. GreenWood's lots are generous, five to seven acres. The land/home package includes the solar power system and is currently priced about 25% below ordinary developments in similar desired locations.

The Keely Legacy Sympathetic Vibratory Physics

Dale Pond

Over 100 years ago, John Ernst Worrell Keely (1827-1898), developed the Musical Dynasphere (Globe Motor). These devices were designed as Prime Movers or power sources to drive the industries of that time. Keely was able to develop useable horsepower as demonstrated to engineers and scientists of that time period who left affidavits and testimonials. These devices were harnessed to vibrational energies...the interconnecting link between all matter.

The awareness of vibrational energy has spawned a new field of study referred to as *sympathetic vibratory physics* (SVP). By studying and applying the principles of vibration we are enabled to see beyond material matter (effects) and into the very nature of the causative Forces of Nature operating by immutable Natural and Universal Laws. These universal principles, laws and dynamics have been well organized and developed as found in music and acoustic science. This field embraces the cosmogony, philosophy and science of Walter Russel, who stated:

To know the mechanics of the wave [vibration/oscillation] is to know the entire secret of Nature.

Dale will be bringing his recreation of a Musical Dynasphere (Globe Motor) originally developed by John W. Keely in the 1880s. It will be an excellent opportunity to see theory translated into hardware!

Shape Power as Universal Resonance

Dan Davidson

This book is the result of 35 years of personally funded research into finding how shapes and different materials convert universal aether into other forces and energies. Dan has broken the code on how the process works; how nature manifests from the virtual particle soup of the aether into matter. Dan has also defined a unified field theory which puts all this into perspective, complete with the mathematical physics and a morphology of atomic structure. He defines the embryonic basis for a new branch of physics and chemistry. The implications of the breakthrough discoveries elucidated in this book have far reaching implications in every area of our lives.

This presentation will briefly summarize the Shape Power phenomena whereby physical shapes convert the aether to other

forces as discovered by Mr. Davidson, followed by research findings of a universal resonance principal where shape, mass, frequency, and other quantities fit into a natural universal order of creation. Preliminary analysis shows that there is a basic pattern to creation that exists from the sub-atomic level to the highest levels of the physical universe.

This discovery leads to a cohesive understanding of how the aether manifests on various levels and opens the door to a new understanding of how free energy and gravity control is possible. Examples of how the universal resonance principles apply to several breakthrough discoveries not heretofore published.

Magnets and Space Energy

Hal Fox

The study of magnets and magnetism has been going on for several thousand years. In 1269 AD, an engineer named Petrus Peregrinus compiled all of the known information in a letter which introduced the concept of self-running magnetic motors. Over time, improved magnetic materials have been developed so that stronger magnets can be made. It is well KNOWN that by using some materials and applying a magnetizing force for a short period of time a permanent magnet can be made. Magnetic theory includes the concept of ferromagnetic domains in which atomic or nuclear magnetic alignments are made parallel.

Students are taught that magnets cannot be used to obtain more energy output than

energy input. The recently announced Minato Magnetic Motor provides about three times as much energy output as input energy. This achievement supports the theory that a magnet aligns space energy. The achievement of an over-unity magnetic motor will precipitate an increased interest in magnetism and challenge conventional views.

Unfortunately, past history has proven that if a new discovery consists of fundamental new science requiring the abandonment of currently-taught concepts, publication is unlikely. The *Journal of New Energy* was founded seven years ago to help fill the need for the publication of new scientific concepts not readily acceptable by the academic scientific community. Examples are given and discussed. The suggested future role of such journals is outlined.

2004 ExtraOrdinary Technology Conference

Jointly Conducted by *TeslaTech* and the *Institute of New Energy*
Salt Lake City, UT • July 29-Aug 1, 2004

CONFERENCE PREREGISTRATION FORM

The US Department of Defence acknowledges GLOBAL WARMING... a need for alternative energy!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have WORKING HARDWARE! Categories include **Tesla Technology, zero point energy, plasma technology, Tesla Turbines, fuel cells, implosion, energy medicine, emerging health issues**, etc. We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

This is a great opportunity to meet others who share your interests! Attending conferences is the best, and most economical, way of developing your network of professional contacts.... *Get the inside technical information you will not find on the internet!!!!* -- **Send in your preregistration early to get the discounts offered!**

Conference Notes:

- Videotapes. Professional quality video tapes will be available during and after the conference. *Private taping is not allowed.* Conference fees **do not include** tapes.
- Family Discounts. Spouse rates available to immediate family accompanied by *members*.
- Individual Sessions. Individual session rates available at the door on a *space available* basis only. Individual sessions will total at least \$280.00 if each session was purchased separately.
- Hotel. Make reservations early to get our special group rate!

SLEEP INN

10676 South 300 West
South Jordan, UT 84095

(801) 572-2020
