

2007 ExtraOrdinary Technology Conference

Salt Lake City, UT --\$-- July 26-Jul 29

CONFERENCE PROGRAM

MEET THE SPEAKERS!

- Ralph Ring
- Jim Murray
- Kim Zorzi
- Konstantin Meyl
- Alan Greenberg, MD
- Tracy Tucker
- Joe Galloway
- Thorsten Ludwig
- Moray King
- Dan Davidson
- John-Arthur Taylor
- Jan Marwan
- Vern Roth
- Mike Windell
- Harvey Fiala
- Steven Greer

2007 ExtraOrdinary Technology Conference

Miller Free Enterprise Center • Salt Lake City • July 26- July 29, 2007

CONFERENCE PROGRAM OVERVIEW

DVDs WILL BE AVAILABLE AFTER CONFERENCE!

TeslaTech, Inc reserves the right to make changes to this schedule without notice.

Thursday • July 26

Session 1 (Evening) • An ExtraOrdinary Nexus

5:00PM: **Ralph Ring** - Otis T Carr, Nikola Tesla and AntiGravity

7:00PM: *Conference Evening Social*

Friday • July 27

Session 2 (Morning) • Researching Tesla's Inventions

8:00AM: **Jim Murray** - Gravity Tap Project

9:30AM: **Kim Zorzi** - Pyromagnetic Engine Thruster Engine (PVTE)

11:00AM: **Konstantin Meyl** - Wireless Tesla Transponder

Session 3 (Afternoon) • ExtraOrdinary Health Issues

1:00PM: **Alan Greenberg, MD** - Metal Toxicity... A 21st Century Epidemic

2:30PM: **Tracy Tucker** - Redefining the Lyme Epidemic and Its Treatment

4:00PM: **Joe Galloway** - ASYRA... BioEnergetic Health Screening

Session 4 (Evening)

6:00PM: *Conference Evening Social*

Saturday • July 28

Session 5 (Morning) • Zero Point Energy Technology

8:00AM: **Thorsten Ludwig** - Development Of A ZPE Sensor

9:30AM: **Moray King** - Water Disassociation Using Zero Point Energy (ZPE)

11:00AM: **Dan Davidson** - Shape Power, Joe Cell and the Flame of Eternal Youth

Session 6 (Afternoon) • Alternative Energy Technology

1:00PM: **John-Arthur Taylor** - Resonant Energy ... From the Ark to Stubblefield!

2:30PM: **Jan Marwan** - Cold Fusion Philosophy

4:00PM: **Vernon Roth** - Implosion, Alchemy and the Motor of the Universe

Session 7 (Evening)

6:00PM: *Conference Evening Social*

Sunday • July 29

Session 5 (Morning) • ExtraOrdinary Challenges

8:00AM: **Mike Windell** - Magneto-Gravitometric Anomaly Detector

9:30AM: **Harvey Fiala** - Inertial Propulsion with Only ONE Moving Part!

11:00AM: **Steven Greer** - Strategies for Creating a New World with New Energy

Thursday · July 26 · Session 1 (Evening) · An ExtraOrdinary Nexus

Otis Carr, Nikola Tesla and AntiGravity Research

Ralph Ring

Over the years, the name of Otis T. Carr comes up with regard to a flying machine he was said to have built and tested as well as a power source which he dubbed the U-tron. Scant details are available as seems to always be the case with such reports. However, in Carrs' case, he did receive a US Patent 2,912,244 for an 'Amusement Device.' On reading the patent and examining the diagrams it seems to be a Trojan Horse method of recording his discovery.

Otis became acquainted with the reclusive Nikola Tesla at the hotel where he resided. Tesla loved to feed the pigeons in New Yorks' Central Park. One day Tesla instructed Otis, then studying art and working in the hotel, to buy two kilos of unsalted peanuts as pigeon food for him. Over a period of three years, af-

ter each delivery of peanuts, Otis had the opportunity to converse with Tesla on his various discoveries. From that knowledge, his own insights, and the aid of his small team, Carr, built a number of flying disks, which worked.... prior to their experimentation being forcibly terminated by government agents.

The principle of operation stated by Carr was that "any vehicle accelerated towards an axis compared to its inertial mass of attraction becomes immediately activated by the energy of space and acts like an independent force."

Ralph Ring is a brilliant innovative technician who as a young man in the late 1950s and early 1960s worked closely with Otis T. Carr.

Conference Lodging Facilities

Be sure to request our special *TeslaTech ExtraOrdinary Technology Conference rates!*

Limited space... Please register by June 28!

Country Inn & Suites
10499 South Jordan Gateway
South Jordan, UT 84095

Hotel Reservations:
(801) 553-1151

Hotel Amenities
For comfort and convenience, hotel amenities include:

- Free Shuttle service within a 5-mile radius (includes conference site)
- Free Deluxe Breakfast Bar
- Free local calls/no surcharge on cards
- Clean, fresh, comfortable rooms standard with a coffee maker, iron and ironing board, free highspeed wireless internet access, and free local calls!
- 24-hr FAX and copy services

Conference Evening Social
Meet the Speakers!
Thu/Fri/Sat 7PM
Country Inn & Suites

Every night provides an opportunity to meet the speakers and other attendees in a relaxed social setting. Its a great opportunity to make new friends that share your interests. We even provide the refreshments!

Located just off I-15 (Exit 293)

Airport Shuttle Information

Express Shuttle *Check-in Desks* are inside the terminal. Please do not go outside to the curb.

Reservations: 1-800-397-0773
Local Reservations: 801-596-1600

Be sure to ask for the Special *ExtraOrdinary Technology Conference Rate!!!*

Conference Site:

Miller Free Enterprise Center Salt Lake City Community College

Larry H. Miller Campus
9750 South 300 West
Sandy, UT 84070

Miller Campus Directory

MPDC - Miller Professional Development Center
KGMC - Karen Gail Miller Conference Center
MFEC - Miller Free Enterprise Center
MATC - Miller Automotive Training Center
MCPC - Miller Corporate Partnership Center

Driving from The North:

Take I-15 South to Exit 295 (9000 South). Exit right (west) onto 9000 South and proceed to 450 West (1st light). Turn left (south), go to 9120 South & turn left (east), go to 300 West (frontage road) & turn right (south). Proceed 6 blocks south along frontage road.

Driving from the South:

Take I-15 North to Exit 293 (10600 South) after exiting, turn right (east) and proceed to State Street. Turn left (north), go to light at 10000 South (Centennial Way) in Sandy. Turn left (west), go under I-15 & turn right (north) on 300 West (frontage road). Proceed 2 blocks north along frontage road.

Conference Exhibition Hall

Free and Open to the General Public

9AM - 5PM Thu • 8AM-5PM Fri/Sat • 8AM - 1PM Sun

Featured Among Our Exhibitors...

ZEPHYR TECHNOLOGY! (937) 429-3847

PO Box 55 • Bellbrook, Ohio 45305

Manufacturer of Lakhovsky Multi-wave Oscillators (MWO), Extremely Low Frequency (ELF) Generators, and Orgone Energy blankets!

www.zephyrtechnology.com

INTERGALACTIC HYDROGEN (801) 201-7370

9851 S Borg Dr. • Sandy, UT 84092

Vehicle upgrades including engine tuning, fuel system integration, and the design and installation of complete hydrogen fuel systems. www.h2go.info

SCIENCE FORMULAS (800) 675-4568

6800 Ft Smallwood Rd • Baltimore, MD 21226

Manufacturer/distributor of a new chemical free oral chelation which helps the body naturally rid itself of heavy metals in a safe and effective manner.

www.scienceformulas.com

NOTT LTD. (505) 327-5646

4001 La Plata Hwy • Farmington, NM 87401

Manufacturer/distributor of Rohn/Nello towers, lightning protection, detuning systems, unipole antennas, stocking distributor, elevated radials. www.nottltd.com

POST CONFERENCE ACTIVITY

Free Sunday Afternoon Seminar

Sun Jul 29 • 1PM-3PM

Clear Money

Vern Warwick

Often referred to as the “dismal science”, *economics* is the social science that studies the production, distribution, and consumption of goods and services. A proper understanding of economic basics is essential for inventors and investors in today’s financial world.

Currently, financial “experts” are virtually unanimous in identifying castophioc problems such as:

Out-of-Control Government Spending · Increasing Unemployment
Skyrocketing Taxation · “Tight” Money · Stock Market Crashes
Real Estate/Housing Bubbles & Busts.

However, these are *symptoms* of an overall sickness that affects our Society! Conventional solutions advocated by the experts lead us through a continuous series of boom and bust cycles. In effect, their “solutions” are drugs to alleviate temporary symptoms of a terminal disease.

Before we can address a true cure to financial ills, we must be able to answer questions such as where money comes from, who owns it, and who should own it. The answers *may* surprise you — and certainly will *impact* your life!

Pyromagnetic Vortex Thruster Engine (PVTE) An Application of Tesla Technology

Kim Zorzi

New energy systems can be based around the principles of expansion and air compression. Both of the principles deal with creating heat and heat loss. The PVTE is based on the use of these known principles as extremely hot and cold temperatures come together to create kinetic energy. The implosion motor and the pyromagnetic compressor uses these temperature differentials as the manipulator to create useful work.

Pyromagnetics (pioneered by Tesla) is sometimes called *thermomagnetics*. It is the changing of the magnetic properties of the material with temperature variations. Thermal differences Generated by the centrifugal acceleration of air, and air compression will provide the energy to establish pyromagnetic oscillations of large copper plates. These oscillating plates might then be used to compress air in the implosion side and the pyromagnetic side as well. Once started and brought into a suitable RPM range, this will become a self breathing engine... a concept yet undefined and not accepted by our laws of science as written. This concept does not break any laws of our natural states of thermodynamics, but produces an efficiency of a high magnitude.

Using this technology, this century should see new aircraft coming of age capable of giving the family man the capability of transcontinental flight using a aircraft that can be housed inside a two car garage. Propellers and rocketry dynamics should become museum pieces. Some experimental devices will be on display to prove the concepts of design.

Wireless Tesla Transponder

Field-physical basis for electrically coupled bidirectional far range transponders according to Nikola Tesla's invention!

Dr. Konstantin Meyl

With the current RFID technology the transfer of energy takes place on a chip card by means of longitudinal wave components in close range of the transmitting antenna. Those are scalar waves, which spread towards the electrical or the magnetic field pointer.

In the wave equation with reference to the Maxwell field equations, these wave components are set to zero, while only postulated model computations exist, after which the range is limited to the sixth part of the wavelength.

A goal of this presentation is to create, by consideration of the scalar wave components in the wave equation, the physical conditions for the development of scalar wave transponders that are

operable beyond the close range. The energy is transferred with the same carrier wave as the information and not over two separated ways as with RFID systems. Besides the bi-directional signal transmission, the energy transfer in both directions is additionally possible because of the resonant coupling between transmitter and receiver.

First far range transponders developed on this basis are already functional as prototypes, in accordance with Tesla's US Patent 787,412. A small boat utilizing this technology will be demonstrated!

Gravity Tap Project

Famous Scientific Illusions contained one of Tesla's better known statements on the mechanics of the earth-moon system which he studied in conjunction with his work on gravity theory as well as energy and power generation!

Jim Murray

Careful analysis of the mathematics in the earth-moon system, in conjunction with other pronouncements delivered by Tesla over the years strongly suggest that Tesla supported the belief that energy is an artificial construct invented by physicists, while power, which is actually real, proves to be relativistic. This means that a one horse power motor can do the same work as a two horse power motor, and in the same amount of time, provided that it is situated in the proper reference frame relative to the work which is to be done. Imagine the implications of this statement. It is no wonder that the scientific community believed that Tesla had gone mad; everyone knows that energy must be conserved at all costs. Right?

A complete understanding of this knowledge eventually leads the intrepid student to a hidden mechanism which gives rise to an understanding of the force of gravity. Hence, Tesla's Dynamic Theory of Gravity! This lost technology was manifested by devices contained in Tesla's mysterious Blue Book (which I have seen many times).

It is my contention, that Tesla understood the physics of *Power Amplification* extremely well, and that he ultimately applied a higher understanding of such principles in the embodiment of his Magnifying Transmitter. It is most interesting to note, that none of our modern day Tesla enthusiasts question Tesla's choice of the word "Magnifying" in his preferred description of his wireless power transmission system.

Home of the Best Kept Secrets of Science

Building a Tesla Turbine

by **Vince Gingery**

Even though Tesla's 1909 turbine was

never commercially available, the turbine nevertheless has generated a great deal of interest the past few years. Vince Gingery built a small, working turbine that will easily turn 5000 rpm. Here you get Tesla background, a copy of his patent, a description of the invention, and most importantly, detailed instructions and how-to so that you, too, can build a working miniature.

The turbine is built up from 18 disks of 20 gauge stainless steel. The rotor slips into a sheet metal housing and fed air through a simple manifold and hardware store piping. Two high speed bearings rated to 30,000 rpm were obtained from different internet sources for \$2-\$3 each. Driven with 85 psi of compressed air, this turbine really whistles. You can build a Tesla turbine. Simply. No hype! Do it today with minimal tools.(48pp)

260017 - Building Tesla's Engine 9.95

Electric Motor Secrets

by **Peter Lindemann**

Laying dormant within the modern electric motor is a deep, dark secret. For the last 176 years, that secret has held the electric motor to its present level of performance. But in 1975, a quantum leap in electric motor design was made by an American inventor named Bob Teal. Teal's Magnipulsion Engine produced COPs between 8 and 10. Using lab demonstrations, patents, diagrams, and private documents, Dr. Lindemann takes you on a trip through the history of electric motors, resurrecting the secret of Magnipulsion, and revealing the future of electric motor design. (2hr 45 minutes)

330015 - Electric Motor Secrets 29.95

Free Energy Secrets of Cold Electricity

Now on DVD!

In the 1970's, inventor Edwin Gray developed an electric automobile engine that produced 80 horsepower and recharged its own batteries. It ran on what he called "cold electricity." This amazing technology remained shrouded in mystery until September 2000. This video is the complete technical lecture given by Dr. Peter Lindemann at that time. In it, he explains exactly how Ed Gray's system works, how he produced "cold electricity" and how that relates to Nikola Tesla's earlier discovery of "Radiant Energy". Using 50 slides of articles, patents, photos, and circuits, Lindemann documents his research, until the method is fully revealed. Now you can understand one of the most powerful Free Energy methods ever discovered. (3 hrs)

330011- Free Energy Secret (DVD) .. 29.95

330001- Free Energy Secret (VHS) .. 29.95

You can get the book too!...

330002- Free Energy/Cold Electric... 29.95

Energy Machine of T. Henry Moray

Zero-Point Energy & Pulsed Plasma Physics

by **Moray B. King**

In the 1920s Moray invented a "free energy" device that produced 50 kW of electricity. Unexplainable by orthodox science, the electricity exhibited a strange "cold current" characteristic where thin wires could conduct appreciable power without heating. Moray suffered ruthless suppression. In 1939, the device was destroyed. Today, modern physics finally recognizes the vacuum contains tremendous energy called *zero-point energy*. Other inventors have discovered that it is activated by pulsing plasma, and have created novel energy devices, but they too were suppressed. The common pattern of these technologies clarified the fundamental operating principle. Free energy that works! Truly inspirational for engineers/inventors (200pp)

450003 - Energy Machine of Moray ...14.95

Tesla's Car and Other Free Energy Devices

Compiled by **Steven R. Elswick, BSEE**

If you are serious about building free energy devices, then this book is for you! In addition to several different construction plans, there is plenty of background information on three different basic types of alternative energy devices. Some devices are designed merely to be more efficient than conventional technology, others claim to be overunity in the traditional sense of the word. Before you buy the mainstream physics claim that alternative energy is not possible, you should at least read the material in this book that indicates otherwise.

Supporting accounts and photos included wherever possible. This is a great book to beef up your technical library. **You will not need to be a rocket scientist to value this book.** Source material, patents and plans are right from Steve's classified file drawers.(121 pgs; GBC)

290010- Tesla's Car/Free Energy 29.95

ALTERNATIVE ENERGY RESEARCHER'S REFERENCE MANUAL

Magnetic Motors & Generators

Compiled by **Steven R. Elswick, BSEE**

Through this book you will learn:

- How to build magnet motors
- How to select materials
- How magnetic motors work

Discover the work of Joe Newman, Howard Johnson, EV Gray, and other researchers that worked on over-unity devices that may have worked. Gain better understanding of magnetics and how they work. Source material, patents and plans are right from Steve's classified file drawers.(121 pgs; GBC)

290009- Magnet Motors/Gen 29.95

Redefining the Lyme Epidemic ...and Its Treatment

Tracy Tucker

“Lyme Disease” is currently diagnosed by identifying infection with the pleomorphic bacteria, *Borrelia burgdorferi*. Lyme researchers believe that more often than not, Lyme is misdiagnosed as a host of many other diseases including but not limited to the following:

ALS • Alzheimer’s • Fibromyalgia • MS
Chronic Fatigue Syndrome • Parkinson’s
Lyme also shares pathogenic microbes with other syndromes such as Gulf War Syndrome and AIDS and I believe even Type II Diabetes.

Mainstream science has just begun to acknowledge Lyme and its co-infections. Many times a person can present with a textbook case of Lyme disease and never test positive for *Borrelia*. Why? It has to do with a couple of factors not the least of which is plasmids or viroid-type snippets of DNA and RNA that are traded between microbes in their day-to-day life. I call this the “Poker Chip Theory.”

In addition, to learning about plasmids, the “Poker Chip Theory” and why neither allopathic nor naturopathic medicine has come up with a successful treatment for any of the above named disorders, attendees can expect to learn about effective treatment modalities.

The Beam Ray, Rife-type device for healing and killing frequencies, naturopathic nutrition to rekindle the “fire” in the digestive system, immune system boosters are just some the weapons in our arsenal to fight this “customized” disease of many disguises!

ASYRA Bio-Energetic Health Screening

Joe Galloway

The Asyra system is the very latest in bioenergetic screening. It ‘stress tests’ the body’s energy system to screen for a whole range of potential bioenergetic imbalances:

- Allergies, Sensitivities/Intolerances to foods and environmental factors
- Screens for nutritional status and advises on nutritional / herbal supplements
- Whole body system scan
- Produces specific bio-energetic remedies
- Gives complete printed report.

The Asyra is the very latest in a long line of instruments based on the long established EAV (Electro Acupuncture according to doctor Voll) system of bio-energetic screening. In the 1950’s Dr Voll discovered that acupuncture points on the energy pathways (meridians) of the body had a lower electrical resistance to the surrounding skin. He then found that the

conductance of the body was affected by the resonance of various substances that he included in the circuit. With modern computer systems things have moved on a lot, but the principle remains the same.

The Asyra is the first of it’s kind to have both hardware *and* software registered with the US Food and Drug Administration (FDA). It is a sophisticated, computerized form of Bio-Feedback that is non-invasive, so no blood is taken. Used throughout the western world by orthodox medical and holistic practitioners, Asyra gives a comprehensive printed report of the findings, that will be explained and may include referrals and recommendations for treatment!.

Metal Toxicity

A 21st Century Epidemic

Heavy Metal contamination can come from the food we eat, the water we drink and the things we touch on a daily basis. They accumulate in our bodies over the years or quickly through unusually extreme exposure.

THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FOOD AND DRUG ADMINISTRATION. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE.

Alan Greenberg, MD

The past 100 years have witnessed remarkable increases in the incidence of obesity, diabetes, hypertension, heart disease, kidney disease, cancer Alzheimer’s disease, depression, autism, attention deficit disorder and a host of other conditions. Additionally, we are seeing new infectious diseases and agents such as antibiotic –resistant bacteria, mycoplasma, Epstein-Barr Virus, HIV, *Borrelia*, *Babesia*, Ehrlichea, etc. associated with AIDS, chronic fatigue syndrome, fibromyalgia, Lyme Disease and Gulf War Syndrome.

Meanwhile pharmaceutical companies are trumpeting the benefits of new

“miracle drugs” which eventually are found to be worse than the diseases for which they are used. Revolutionary techniques such as MRI have been developed but despite these and the spending of enormous sums for medical research, not a single cure has been found.

Learn about these phenomena and how their relationship to the enormous increases of toxic metals and chemicals in the environment, an equally major increase in electromagnetic pollution, a relentless degeneration of the quality of our food supply and the usurpation of government by Big Business. Practical individual counter-measure will be discussed.

Water Dissociation with Zero-Point Energy (ZPE)

Moray King

Numerous inventions claim anomalous, energetic phenomena from water. Some inventions use standard electrolysis to produce hydrogen to catalyze a more efficient gasoline/diesel combustion. Electrolysis efficiency is improved by using pulsed electrical excitations tuned to resonance of the water molecule's hydrogen-oxygen bond. Coherent ZPE activation can occur via abrupt ion motion in plasma discharge in an underwater arc or within a chamber of water vapor. If the arc is discharged repeatedly in a spinning fashion, the resulting plasma/vapor vortex can further couple ZPE into the system. Further means of dissociation include ultrasonic excitation at Keely's water dissociation frequency (~43 KHz) as well as laser stimulation at the point of electrical discharge.

There are inventions that use vortex motion of water to produce energetic anomalies. Schauburger induced precession and imploding vortex motion in water that exhibited a bluish glow at the tip of the vortex. Paul Pantone has claimed to observe similar glow within his dual manifold vortex system. Combining high voltage stimulation to the water vortex could induce macroscopic vorticity in the surrounding ZPE field. Such energized water may be readily dissociated by resonant pulsed electrolysis.

Noteworthy inventions include Andrija Puharich's resonant electrolysis, Stan Meyer's water fuel car, Phillip Kanarev's plasma electrolysis, MIT's plasmatron, George Wiseman's parallel plate, pulsed electrolysis producing Brown's Gas, and the Joe Cell containing many concentric cylindrical electrodes. Combining the techniques of these inventors could yield synergistic efficiency for water dissociation sourced from the zero-point energy.

Shape Power, the Joe Cell, and the Flame of Eternal Youth

Dan Davidson

Shape converts the universal aether, the space energy, into other forces such as electrostatic, gravitic, and magnetism. This occurs from the subatomic realm on up the scale of size to the galaxy and beyond. This has been discussed in my book *Shape Power*. This dissertation goes into the subatomic particles, the electron and proton as shape power forms, their shape effects, and how the forces associated with them get created in the aether. The electron and proton shapes are torroidal rings in the aether. When extended into cylinders on a macro level are also shape power forms that draw in and concentrate the aether in the same manner.

If an aether collector is provided in the center of the cylinder the aether can be concentrated even further. The cylindrical Joe Cell design is such an aether collector. Detailed analysis of the Joe Cell leads to the question - How can such a device produce a combustibile "gas" from the water when the water is not depleted from the Joe Cell cylinder? Furthermore, How can the Joe Cell produce some force that allows an internal combustion engine

The vibrant energy field around us is also called the quantum vacuum state or zero point energy. To tap into this energy can provide us with an enormous energy reservoir. If we engineer the vacuum state we can built the technology of tomorrow today. A helpful tool to apply the engineering into practise

to function when the "gas" is not even input into the airstream of the engine. There are many anomalous aspects to the Joe Cell which have never been answered.

Another shape power device closely related to the Joe Cell collects ORMEs from the air. ORME is an acronym invented by David Hudson, who is credited with rediscovering the ancient Philosopher's Stone, the fabled alchemical powder that would rejuvenate the body, illumine the mind, and transmute base metals into gold or other precious metals. ORME stands for Orbitally Rearranged Mono-atomic Element. ORMEs are mono-atomic versions of elements in the transition series of the periodic table. This paper will delineate the marvelous discovery of the ORMEs and why they exist in many places in our world and how an absurdly simple shape power device can collect ORMEs and be used in agriculture and as a health adjunct to increase health and well-being. The author is living proof that this device does some wonderful magic.

ZPE Engineering In Practice The Development Of A ZPE Sensor

Thorsten Ludwig

is to detect changes in the ZPE induced by our energy converters. The presenter will give a lot of useful information on how to measure the ZPE force, also called Casimir force, with force sensor built from a 50 cent radio shack part. Over 3 Billion of these parts are manufactured each year and they are found in almost every home. The European union is granting \$1 Million for projects that aims on using the Casimir force to move objects without touch. The talk will cover practical aspects on home built ZPE device engineering and manufacture as well as current state of the art research.

ExtraOrdinary Products

Home of the Best Kept Secrets of Science

Introducing **FLUID RX**

The "One Drop Oil Test!"

Fluid Rx Instant Lubricant Test is a patented fluid test that measures the amount of sludge in a lubricant or oil. **Fluid Rx** testing provides simple and accurate verification that a fluid should be changed! Simply place a drop of the sample fluid or lubricant on the **Fluid Rx** tester (filter paper) then compare the findings to the **Fluid Rx** ISO analysis chart. In seconds **Fluid Rx** provides an analysis of the sample.

The kit can test six types of fluid/lubricants:

- Crankcase Motor Oil
- Brake Fluid
- Power Steering Fluid
- Transfer Case Gear Oil
- Transmission Fluid
- Differential Gear Oil

As fluid test specimens percolate through the unique Fluid Rx filter paper, bands and/or zones of different colors, densities, even unwanted wear metals and debris form a chromatogram. Changes in the appearance of the zones or bands are a clear indication that something in the lubricant has changed. A closer look at the zones, their unique formation, and the debris fields contained therein reveal high particle counts that can be correlated to ISO Code. Fluid Rx chromatograms provide a measure of sludge and dispersant properties that is correlated to laboratory analysis: **New/Good, Change, Bad**. Simply compare the Fluid Rx chromatogram to the Fluid Rx ISO analysis chart.

Each kit contains instructions, ISO comparison charts for the six fluids, and materials for six tests of each fluid. Additional sheets of Motor Oil Test Pads are available. Each sheet is good for 6 tests.

990010 - Fluid RX Personal Test Kit 9.95

990011 - Add'l Motor Oil Test Sheet ... 3.00

MagnaGuard

Inexpensive Engine Protection System

Even under the best conditions, with meticulous maintenance, your engine sheds tiny particles of metal grit in the oil. Since oil filters are designed to pass oil freely to provide adequate lubrication for your engine, only particles of grit 20- 30 microns or larger are, will trapped in the filter's porous element. **MagnaGuard** added to these same filters controls particle contamination down to 0.5-microns... about 40 times more grit than your filter alone!

A clean engine runs better, lasts longer, gets higher mileage, and reduces pollution. Independent lab tests document an 18% reduction in toxic tailpipe emissions with **MagnaGuard**. Install **MagnaGuard** today and start reducing overall maintenance and operating costs.

990003 - Magna-Guard 7.99

The Original
All-In-One
Formula

Synthetic Lubricant
Concentrate

Liquid Ring brings back power and performance to a worn, weak engine while reducing emissions at the source. Its innovative Lube-Logic multi-action formula senses and adapts to your engine's performance needs for high or low mileage engines. First, the formula builds up compression and stops smoking that occurs due to worn engine parts such as pistons, piston rings, and cylinder walls. Then, its protective coating becomes bonded and does not drain back into the oil pan when the engine is off. (**Liquid Ring** does not contain Dupont teflon.)

Easy to apply, **Liquid Ring** can be used as strictly an occasional engine overhaul treatment or for smog reduction. When used as a smog reducer (the preferred method), one will constantly reap the overhaul treatment benefits. As long as **Liquid Ring** is present in the engine, the catalyst will help reduce smog.

990002 - Liquid Ring (1qt) 39.95

T.T.-L

Better than VIAGRA!!!

Advanced Soviet Bio-technology...

T.T.-L is an original all natural, non-hormonal preparation of *Tribulus Terrestris* L—a natural steroid. Active ingredients are steroidal saponins of the furostanol type, isolated from the puncture weed. Used around the world for years as folk remedies for many ailments and conditions in addition to those related to sexual functions, body builders use it on a regular basis to increase stamina!

Supplement Benefits:

- Arthritis Pain Relief
- Increased Lean Muscle Mass
- Impotence - Infertility
- Hair/Nail Repair & Growth
- Regulation of Blood Pressure
- Cholesterol Level Management
- Immune & Respiratory System Support
- Rejuvenation & Increased Stamina

The strongest formulation on the market, each Capsule contains 40% Saponins. **Guaranteed for relief of arthritis pain within 21 days** when taken as instructed.

Start Banishing Disease Today ...

with unlimited amounts of colloidal silver...
it's safe and heals with the power of nature!

Pocket Sized Colloidal Silver Generator

Note: These units are for personal *experimental* use only.

Silver, commonly valued for its monetary value, and referred to poor man's gold, has been used since ancient times as an antiseptic and cure for many diseases. Then, with emergence of the pharmaceutical companies it disappeared...

Colloidal Silver, a powerful natural antibacterial liquid can be applied externally, and used throughout the house. It costs only pennies per cup to produce with the pocket generator, which produces colloidal silver at 3-5 ppm with particle size of 0.005-0.015 microns. This generator provides an adequate amount for personal use for up to a year! Add'l information/instructions provided. Battery not included.

990002- Pocket Silver Generator \$8.95

Resonant Energy From the Ark to Stubblefield!

John Arthur Taylor

Initially inspired by his study of the Arc of the Covenant (Exodus 25:10), and later by Gerry Vassilatos book "Lost Science", John delved into the world of natural earth energy. One of the main pioneers of this unique energy source was Nathan Stubblefield, a farmer and telephone repairman living in Calloway County, Kentucky,

Stubblefield claimed he could send messages through the air without wires. On January 1, 1902 Stubblefield and his son Bernard had set up two boxes ~200 ft apart that were not connected in any visible way. Each box was about two feet square and contained a telephone, through which Stubblefield and his son talked as if they were standing next to each other, their voices being perfectly audible to the crowds gathered around each box! Stubblefield also developed a battery to power this system and a motor,

Nikola Tesla performed double ground experiments with impulses as early as 1892, reporting these in lectures and patenting some embodiments in 1901. Not one of these later systems ever achieved the same results of clarity, tone, and volume of Stubblefield ground telephony. Tesla apparently never discovered the true powerpoints which powered Stubblefield's device. In addition, his was the only system in which natural energies were obtained, magnified, and entirely employed as the empowering source. All other inventors used "artificial" sources (batteries, alternators, dynamos).

John has recent work combining Stubblefield and Tesla technology along these lines is showing some promising results.

Cold Fusion Philosophy

Dr. Jan Marwan

It is obvious that cold fusion is not similar to thermonuclear hot fusion processes. An appreciable number of available documents reports on different methods by which nuclear reaction is produced and controlled at low temperature. Those methods are ranging from using gun-powder to electrochemically inducing nuclear fusion and fission with large excess heat in a deuterium containing metal lattice.

The emphasis is directed towards fabrication of pseudo-cold fusion devices with unique commercial potentials demonstrating the power of low temperature nuclear reactions. The idea of cold nuclear fusion has led to endless discussions about the kinetic impossibility of intense nuclear reactions with high coulomb barrier potentials. During the 1989 Pons-Fleischmann experiment, electrochemical cells using heavy water with the

corresponding electrolyte in the solution and palladium as the electrode, released significant excess heat challenging all current atomic models. The attention has been focused to the development of new ideas ranging from nucleon-cluster to the electron charge-cluster model.

Reproducibility of cold fusion reactions has been hardly obtained, and no research group has fully resolved the problems associated with the special preparation of the metal electrode, the loading of heavy water and the turning on of excess heat.

This paper highlights the research on the nanostructured palladium hydride system outlining the kinetic behaviour of hydrogen and deuterium diffusing into the pores of the nanostructure. To our understanding, this kinetic aspect is believed to be the key issue to achieve nuclear reactions within metals of any choice.

Implosion, Alchemy and the Motor of the Universe

Vernon Roth

implosion to change energy into matter and cosmic energy into power and force.

Following the principles of living systems and the Earth, we can use implosion to make alchemical transformations, heat homes, create perpetual motion and power. This presentation includes hands-on demos and step-by-step instructions to create a very powerful implosion device that can be built for less than \$50 on your kitchen table. You will learn how to use that device for your own alchemical transformations and heat generation.

See how magnets are in fact the motors of the universe and their power comes from the Aetheric light in the form of implosion. See how to harness that power in the form of spinning and rotating magnets. Explore the Implosive/Explosive nature of time and reality and see how it effects our lives every day.

Implosion is the most important and most overlooked aspect of energy and power on the planet. Einsteinian physics teaches us that matter and energy are interchangeable. But the mechanism of change requires huge amounts of power and force to release that energy, or to theoretically change energy into matter.

Aetheric or quantum physics shows us that energy and matter are completely interchangeable and easily done. The mechanism: *implosion*. Implosion allows us to change matter into energy and vice-versa, as well as the states and vibrations of matter from one form to another. Living systems use implosion to change elements inside the body. The Earth uses

VHS Tapes are No Longer Available !

(1987-2002)

The *Global Sciences* organization was founded in 1983 by Dean Stonier with the intent to promote the understanding and integration of body, mind and spirit as well as the mysteries which surround us in daily life such as UFO's, crop circles, spiritual growth and ascension, alternative healing modalities, suppressed technologies, mind control, shadow government/one-world conspiracies. Eventually this resulted in two national conferences each year, typically Florida in the Winter and Denver in Summer. Dedicated to bringing you the latest information which is crucial during these exciting times here on planet Earth, these congresses were considered the premier events of the alternative world for nearly two decades!

Strategies for Creating a New World with New Energy

Steven M. Greer, MD

Research shows that over the past 75 years a number of significant breakthroughs in energy generation and propulsion have occurred and then systematically suppressed. Since the time of Tesla, T T Brown, and others in the early and mid-20th century, we have had the technological ability to replace fossil fuel, internal combustion, and nuclear power generating systems with advanced non-polluting electromagnetic and electro-gravitic systems. The open literature is replete with well-documented technologies that have surfaced, only to later be illegally seized or suppressed through systematic abuses of the national security state, large corporate and financial interests, or other shadowy concerns.

In short, the strategic barriers to the widespread adoption of new electromagnetic energy-generating systems far exceed the technological ones. The proof of this is that after decades of innovative and promising inventions, none have made it through the maze of regulatory, patenting, rogue national security, financial, scientific, and media barriers confronting the inventor. An inventor or small company cannot overcome such obstacles. Therefore, a strategic plan and capability commensurate with these barriers must be devised and executed in order for new technologies to succeed.

SEAS (Space Energy Access Systems) is specifically designed to lead and ensure that new technologies become widely known and applied. This means the simultaneous orchestration of several key components of the SEAS strategic plan to implement these technologies that will enable humanity to attain a long-term, environmentally sustainable civilization and a peaceful and enduring future.

Magneto-Gravitometric Anomaly Detector

Mike Windell

In addition to our Ambient Energy Converter (ACE) (covered last year), Scientific Research Inc has been developing an Element Signature Detector (ESD) aka Anomaly Detector (AD). To understand the underlying principle by which both systems work, we first must look at the universe in which we live, it consists mostly of space, which is not empty but very active. It is full of noise and resonant energy.

That statement seems paradoxical, how can disorder and chaos be symmetrical and orderly? It is fully explained in chaos theory and stochastic quantum electrodynamics. The ACE uses trillions of tiny nanocrystal dendritic antennae to gather and demodulate resonant noise energy to produce a usable DC electric current. Estimated output per cell is one watt per cubic inch, which is about a kilowatt per cubic foot. This system does not violate the Second Law of Thermodynamics or any other law of physics.

Element Signature Detector (ESD) or Anomaly Detector (AD)

The same principles apply to the ESD (AD). Every atomic element in the periodic table and every molecular structure has a unique characteristic electronic signature embedded in the ubiquitous universal noise. We have found a way to detect these patterns at a distance and then amplify them. Furthermore, by using computer software, we can distinguish and display the information for use in target identification.

The ACE has an obvious market for any user of batteries and portable power as well as fixed installations. The ESD (AD) has uses by the military, surveillance and identification groups as well as archeologists, geologists and treasure hunters.

Inertial Propulsion with only One Moving Part!

Harvey Fiala

This presentation defines “inertial propulsion” as propulsion without a propellant or without reacting against any mass or field in the classical four-dimension space-time continuum. However, this does not preclude a reaction against a mass or field in another dimension.

A spinning precessing rotor (such as a spinning disk with an axle supported at one end on a pivot point) is known to

have less inertia or angular momentum in the instantaneous direction of its precession than the amount calculated for the same non-spinning rotor following the same path with the same angular velocity. Just how much less inertia is a function of a rotor’s design and is not known precisely at this time - the jury is still out on that issue. However, some preliminary measurements by the author have measured inertia during precession at approximately 30 % of its calculated value for a simple rotor with most of its mass in its rim. The higher the “quality” of a rotor, the lower will be its inertia during precession. The highest quality rotor would have essentially all of its mass in a very thin rim at its outer periphery.

ORDERING INSTRUCTIONS

Please include your phone number!

This helps us to contact you in the event of a discrepancy or problem. Your privacy and confidentiality will be respected otherwise. It has always been, and always will be, our policy to NOT sell our membership and customer mailing lists.

Send special questions and comments on a separate piece of paper, so that the processing of your order is not slowed down. Although we may not be able to respond to your comments directly, we do welcome them and read every one of them — and often, changes and new books are the result of an inquiry. Technical questions are usually better handled if directed to our magazine, **ExtraOrdinary Technology**, as a "Letter to the Editor."

We attempt to keep all books in stock.

However, there are occasions when demand outpaces supply. Accounts are credited at the time an order is placed. If a book is out of stock, it will be backordered and sent to you as soon as it arrives. If a book has been discontinued, a refund will be sent immediately.

We try to keep our Shipping and Handling charges as low as possible.

The US Postal Service's constant and ever accelerating rate changes have destabilized the shipping market. Currently, in our most recent shipping schedule, we have decided to ship *ALL* books by bookrate or surface, unless specifically requested otherwise. We are looking into UPS as an option... but they do not deliver to PO Box addresses.

We have a variety of payment options.

In addition to accepting the major credit cards shown, we also accept checks, postal money orders, money orders and Federal Reserve Notes (ie. cash in US dollars).

Dissatisfied? If there is a problem with your order, please notify **TeslaTech, Inc** at (520) 463-1994 immediately.

Thank you for your support!

Orders processed and shipped within a week

Overseas orders... Please address order as it is to appear on the package!

2007 ExtraOrdinary Technology Conference

Salt Lake City, UT • July 26-Jul 29, 2007

Conference Early PreRegistration Form

Information so HOT... it NEEDS to be Suppressed!

Nikola Tesla set the stage for unparalleled technological advances in the 20th Century and the new millennium. In the tradition of Tesla, many of our researchers will be presenting new concepts that go against the status quo. Speaking slots are limited with priority going to those who have **WORKING HARDWARE!** We challenge you to come and see many of these advanced concepts demonstrated at this conference.... *many of them are so unbelievable, you have to see them for yourself!!!*

This is a great opportunity to meet others who share your interests! Attending conferences is the best, and most economical, way of developing your network of professional contacts.... *Get the inside technical information you will not find on the internet!!!!* -

Suggested Speaker Topics/Categories :

- Tesla Technology
- Tesla Coils
- High Energy Physics
- Scalar Technology
- Alternative Energy
- Fuel Saving Products
- Alternative Medicine
- New Health Products
- Extreme Physics

Conference Notes:

- **Video Recordings.** Professional quality video DVDs will be available during and after the conference. *Private taping is not allowed.* Conference fees **do not include** DVDs.
- **Family Discounts.** Spouse rates available to immediate family accompanied by *members*.
- **Individual Sessions.** Individual session rates available at the door on a *space available* basis only. Individual sessions will total at least \$350.00 if each session was purchased separately.
- **Hotel. TBD...** We are currently negotiating with the hotels in the immediate vicinity of the conference for the best price/service combination possible. Once an agreement is reached, we will notify all registrants so you can make your reservations early at TeslaTech's special group rate.
- **Refund Policy.** *Nonemergency* refunds are subject to a 10% cancellation processing fee.

Conference PreRegistration Rates

Type Attendee	Rate	# Attend	Cost
