

Thursday · July 27 · Session 1 (Evening) · An ExtraOrdinary Hazard

Identifying & Treating End Time Diseases

David Korn DDS, DO, MD(H)

The fastest-growing epidemic in the world.... Lyme Disease... is now on six continents and spreading fast. Everyone should be greatly concerned. It has been published that over 300 dissimilar disorders are linked to the Lyme bacterium, most of these very serious.

It lurks in the background of a number of serious conditions like MS or perhaps Parkinson's. A first cousin to syphilis, not only is the elusive Lyme bacterium tough to diagnose, but also underestimated by healthcare practitioners.

How did Lyme Disease get to be such a pain? Where did it come from? What causes it? These have not been as easy to answer as one might think, even given modern epidemiologic detective work.

Truly the disease could not be any "better" of a disease, were it designed by the devil himself.

In fact, most Christians and escatologists—those Bible scholars who specialize in prophecy—and the speaker, strongly hold that we are living in the "End Days." If that is, in fact, true, one could expect to see signs of this around us: plagues and natural disasters would abound. Indeed, are they not?

The author sees Lyme Disease—the world's fastest growing epidemic—as fulfilling "plague" end-day requirements! Learn more about the origins of some modern day plagues, how to positively identify and effectively defeat this disease. Your health may depend on it!

Conference Lodging Facilities

Limited space... Please register by June 30!

Be sure to request our special *TeslaTech Conference rates!*

Hampton Inn
10690 S Holiday Park Dr
Sandy, UT 84070

Hotel Reservations:
(801) 571-0800
