

Redefining the Lyme Epidemic ...and Its Treatment

Tracy Tucker

“Lyme Disease” is currently diagnosed by identifying infection with the pleomorphic bacteria, *Borrelia burgdorferi*. Lyme researchers believe that more often than not, Lyme is misdiagnosed as a host of many other diseases including but not limited to the following:

ALS • Alzheimer’s • Fibromyalgia • MS
Chronic Fatigue Syndrome • Parkinson’s

Lyme also shares pathogenic microbes with other syndromes such as Gulf War Syndrome and AIDS and I believe even Type II Diabetes.

Mainstream science has just begun to acknowledge Lyme and its co-infections. Many times a person can present with a textbook case of Lyme disease and never test positive for *Borrelia*. Why? It has to do with a couple of factors not the least of which is plasmids or viroid-type snippets of DNA and RNA that are traded between microbes in their day-to-day life. I call this the “Poker Chip Theory.”

In addition, to learning about plasmids, the “Poker Chip Theory” and why neither allopathic nor naturopathic medicine has come up with a successful treatment for any of the above named disorders, attendees can expect to learn about effective treatment modalities.

The Beam Ray, Rife-type device for healing and killing frequencies, naturopathic nutrition to rekindle the “fire” in the digestive system, immune system boosters are just some the weapons in our arsenal to fight this “customized” disease of many disguises!

ASYRA Bio-Energetic Health Screening

Joe Galloway

The Asyra system is the very latest in bioenergetic screening. It ‘stress tests’ the body’s energy system to screen for a whole range of potential bioenergetic imbalances:

- Allergies, Sensitivities/Intolerances to foods and environmental factors
- Screens for nutritional status and advises on nutritional / herbal supplements
- Whole body system scan
- Produces specific bio-energetic remedies
- Gives complete printed report.

The Asyra is the very latest in a long line of instruments based on the long established EAV (Electro Acupuncture according to doctor Voll) system of bio-energetic screening. In the 1950’s Dr Voll discovered that acupuncture points on the energy pathways (meridians) of the body had a lower electrical resistance to the surrounding skin. He then found that the

conductance of the body was affected by the resonance of various substances that he included in the circuit. With modern computer systems things have moved on a lot, but the principle remains the same.

The Asyra is the first of it’s kind to have both hardware *and* software registered with the US Food and Drug Administration (FDA). It is a sophisticated, computerized form of Bio-Feedback that is non-invasive, so no blood is taken. Used throughout the western world by orthodox medical and holistic practitioners, Asyra gives a comprehensive printed report of the findings, that will be explained and may include referrals and recommendations for treatment!.

Alan Greenberg, MD

The past 100 years have witnessed remarkable increases in the incidence of obesity, diabetes, hypertension, heart disease, kidney disease, cancer Alzheimer’s disease, depression, autism, attention deficit disorder and a host of other conditions. Additionally, we are seeing new infectious diseases and agents such as antibiotic –resistant bacteria, mycoplasma, Epstein-Barr Virus, HIV, *Borrelia*, *Babesia*, Ehrlichea, etc. associated with AIDS, chronic fatigue syndrome, fibromyalgia, Lyme Disease and Gulf War Syndrome.

Meanwhile pharmaceutical companies are trumpeting the benefits of new

“miracle drugs” which eventually are found to be worse than the diseases for which they are used. Revolutionary techniques such as MRI have been developed but despite these and the spending of enormous sums for medical research, not a single cure has been found.

Learn about these phenomena and how their relationship to the enormous increases of toxic metals and chemicals in the environment, an equally major increase in electromagnetic pollution, a relentless degeneration of the quality of our food supply and the usurpation of government by Big Business. Practical individual counter-measure will be discussed.
