Emerging technologies in such fields as energy, medicine, health, and physics are in constant danger of being overlooked or suppressed by what Nikola Tesla referred to as the "organized opposition" — a loose coalition of intellectual and economic forces.

**TeslaTech, Inc** was specifically created to champion and nurture advanced concepts and products in science and technology. Our publications and conferences provide independent inventors and researchers with a credible platform to introduce new, advanced concepts, inventions and discoveries to the world -- many of these concepts originated with Tesla at the turn of the 20th century. Research materials related to science and technology are available to the general public through our catalog...

All truth passes through three stages:

First it is ridiculed;  
Second, it is violently opposed; and  
Third, it is accepted as self-evident.

# The Life & Research of Nikola Tesla

Nikola Tesla (1856-1943) invented, developed or imagined the technology that brought us electricity, remote control, neon and fluorescent lighting, radio and much more...all the basic inventions that now connect the world with power and information.

## The Secret of Nikola Tesla —The Movie (DVD)

Orson Welles as JP Morgan • Peter Buzovic as Nikola Tesla  
Strother Martin as Westinghouse • Dennis Patrick as Edison

Long shrouded in secrecy, the life of Tesla is artfully illuminated in this film. Tesla, born in Croatia in 1856, is the father of our modern technological age and one of the greatest scientific minds that ever lived. Tesla changed the world with the invention of the AC motor, making the universal distribution of electricity possible. His achievements led to the discovery of radio and television as well as the harnessing of Niagara Falls, remote control, radar, and manipulation of matter and energy. Nikola Tesla is one of the most fascinating people in history. *The Secret of Nikola Tesla* is a penetrating study of the life and mind of a "scientific superman" dedicated to the task of designing and improving technology to advance humanity. **One movie that every student of Tesla Technology should see!** (105 min)

## Wizard: The Life and Times of Nikola Tesla

by **Marc Seifer, PhD**

This biography of the scientific genius -- Nikola Tesla -- is the result of over 20 years of research into questions left unanswered

by the other authors, including...

- why Tesla dropped into obscurity;
- if he really received signals from Mars;
- how magnifying transmitters work;
- why he failed at Wardenclyffe... a project backed by JP Morgan;
- and what happened to his secret particle beam weaponry papers;

*Wizard* includes Nikola Tesla's contemporaries such as Edison, Westinghouse, Astor, JP Morgan, FDR and J. Edgar Hoover. This work is well documented, a full bibliography and index, and pages of photos. (540 pp)

## Prodigal Genius

by **John J. O'Neill**

"Nikola Tesla stalks through O'Neill's pages, the fantastic figure that he was in life — a celibate recluse who sought supreme control over matter and energy, a Dr. Faustus who cared nothing for Marguerites, a philosopher filled with

vast discontent, a poet who toyed with artificial lighting... O'Neill's book is the one full-length biography and the one appreciation of Tesla that we have. It does honor both to Tesla and its author, and it ought to be read by anyone who takes the slightest interest in this highly electrified world of ours." - *Waldemar Kaempffert*

## My Inventions:

Autobiography Of Nikola Tesla

edited by **Ben Johnston**

*My Inventions* is essential reading for those seeking to penetrate Tesla's complex personality and mysterious life. Here, Tesla reveals how his relentless photographic memory and his runaway imagination almost fatally cursed his childhood in Yugoslavia. He tells how he harnessed his visions to inventions, yet never outgrew his many childhood fears and compulsions- Hem, in the inventor's own words, is the story of Tesla's Faustian quest for the electric motor the experts said could never be built!!!

## The Tesla Papers

Compiled by **David H. Childress**

In the tradition of *The Fantastic Inventions of Nikola Tesla*, David Childress takes us into the incredible world of Nikola Tesla and his amazing inventions. *The Problem of Increasing Human Energy with Special Reference to the Harnessing of the Sun's Energy* is included. Also included are papers presented on Tesla at the Colo Spgs Tesla Symposiums, such as: Secret History of Wireless Transmission • Tesla and the Magnifying Transmitter • Design of Half-Wave Tesla Coil • Electrostatics: A Key to Free Energy • Progress in Zero-Point Energy Research (perfect; 225 pp)

## TESLA: Master of Lightning

PBS documentary featuring *Stacy Keach*

Nikola Tesla, a brilliant and charismatic immigrant whose talent took him to the height of celebrity, locked horns with Thomas Edison, J. Pierpont Morgan, and Guglielmo Marconi. George Westinghouse and Mark Twain praised his genius. Like many geniuses, Tesla was an unconventional man who gave his life to realize his visions, while others made millions with his inventions. This movie gives long overdue recognition to a great and misunderstood man of science. Many new and unknown details of Tesla's life have been uncovered for this dramatic, entertaining program. Much of the story is in Tesla's own words, drawn from his autobiographical and scientific writings. Nikola Tesla's life is an inspiring example of the power of one man to change the world with technology and revolutionary ideas. (90 min)

## TESLA Man out of Time

## Tesla Technology Series --

This series by George Trinkaus is the only systematic treatment of Tesla Technology for the electrical nonexpert I have found. All of the booklets are written in clear English, well illustrated, and use a minimum of math.

Easy to understand, I have personally seen one novice build a Tesla Coil using the Tesla Coil booklet... and junk parts! I give it THUMBS UP!

## RADIO TESLA

### the secret of Tesla's radio and wireless power

Tesla's transmitters produce hi-voltage, impulse disturbances conducted through earth at low frequencies. His wireless power uses similar principles. Modern radio took a lot from Tesla, but what did it ignore? Rediscover spark and grounding: Revive low freq, underground radio, no license radio, carrier-current radio, and radio-free energy. (Bklt; 37pp)

**340003 - Radio Tesla ..... 12.95**

## TESLA: The Lost Inventions

Famous in 1900 for inventing the alternating current system we still use today, Tesla's later inventions (1890 - 1921), have never been used. These inventions hold the greatest potential to alter the field of alternative energy! The suppressed inventions include the disk-turbine rotary engine, the tesla-coil electric energy magnifier, high-frequency lighting systems, the magnifying transmitter, wireless power, and the free-energy receiver. (Bklt; 33pp)

**340002 - TESLA: The Lost Inventions ..... 7.95**

## TESLA: the true wireless

Tesla's final published statement on how radio really works... Tesla says the Hertzian radio we've been taught is "fiction." He insists that the amount of energy that can be transmitted is "billions of times greater" than conventional radio allows. Can we transmit power to homes/workplaces without wires to be free of the grid? Tesla's convinced! (Bklt; 15pp)

**340004 - TESLA: the true wireless ..... 9.95**

## TESLA COIL

Invented by Tesla (1891), a *Tesla Coil* boosts energy from a socket or battery to millions of hi-frequency volts. All of the facts needed to build one on any scale is included. Use junk to build it... beer-bottles, old wire, etc. I know more than one person who has built a high performance coil with this booklet! well-tuned coil's output performs amazing tasks... lighting, disinfection, communication! Tesla's Magnifying Transmitter (the ultimate coil) was for wireless power/global communications. (Bklt; 25pp)

## Son of TESLA COIL... build a Tesla lighting plant

Build a "third generation" Tesla coil. Discover the magic of oil immersion, close coupling, and precise pulsing. Learn how to drive a Tesla coil from low-voltage battery power. See how neon technology can be adapted for Tesla off-the-shelf. Build a solid-state pulse generator and a Tesla lighting plant and hook up your ammeter and see if it is efficient. Will Tesla be the next step in home power? (Bklt; 28pp)

## Tesla's Views On the Wireless Transmission of Power

compiled by **Steven R. Elswick**

In 1899, Nikola Tesla—the world's foremost electrical wizard of his time—physically *demonstrated* the wireless transmission of power in Colorado Springs. Over the next 50 years, Tesla failed in his attempts to bring power to the people. Articles and letters to various editors form a clear, coherent, and articulate visualization of **Tesla's concept of power**, and how he *could* move immense amounts of currents through the earth with his ultimate power machine. Tesla's famous article... *The Problem of Increasing Human Energy* is included. Read Tesla's writings and see that his dream of wireless power IS practical and the obstacles from the "organized opposition" he encountered in his Herculean struggle to realize his dream become self-evident.

## Nikola Tesla: Lecture Before the New York Academy of Sciences - April 6, 1897

On the Streams of Lenard and Roentgen  
with Novel Apparatus for Their Use

*Suddenly, without any preparation, Roentgen surprised the world...*

So begins one of the most sought after of Tesla's treasures — his unpublished 1897 X-Ray lecture before the New York Academy of Sciences. Several puzzles become clear with this document. Nikola Tesla's independent discovery of X-Rays, unlike Roentgen's, was based on sources which produced X-Rays by vacuum high field emission and the process now known as *bremsstrahlung*. While Roentgen employed a gaseous discharge tube utilizing electron avalanche, Tesla's cold cathode tubes worked best with high vacuum. Tesla's distinctive approach presaged the way for high energy particle accelerators, permitting the utilization of megavolt potentials, single electrode tubes, atmospheric *bremsstrahlung*, and a variety of beam techniques. Tesla was ahead of his time: Fowler and Nordheim's quantum mechanical considerations, needed to understand Tesla, were developed 32 years later!

This broad lecture provides a remarkable amount of collateral information. He also included information on high frequency RF techniques, coupled oscillators, magnetic receiver technology, the development of fluorescent lighting, and the creation of a stroboscopic measurement apparatus.

## NIKOLA TESLA on His Work with Alternating Currents and Their Application to Wireless Telegraphy, Telephony, and Transmission of Power

by **Leland Anderson**

The surfacing of this astounding 1916 pre-trial transcript with Nikola Tesla by his legal counsel resulted from an intensive search in archives of many legal firms, some now defunct — others later acquired by contemporary interests. This interview was never intended for publication and Tesla candidly discussed his contenders while presenting a thorough history of his work with alternating currents as applied to wireless transmission.

Described in this document are experimental methods, techniques and apparatus used in Tesla's laboratories at New York, Colorado Springs, and Long Island. It won't tell you how to wire up the magnifying transmitter, but it will tell you what instruments Tesla was using, his thoughts, his conceptualizations, how he proceeded, where he performed historic experiments, when key results were obtained, and his conclusions. This is virtually a Rosetta Stone into the technical thoughts of the world's greatest inventor! A MUST read boo for all inventors/scientists! (237pp)

## Nikola Tesla: Guided Weapons & Computer Technology

Tesla's Proof of Priority in Robotics

commentary by **Leland Anderson**

Nikola Tesla presents, in his own words, through heretofore unpublished extended interview, lecture, legal deposition and proposal discourse, his accomplishments in the fields of high frequency alternating current power systems engineering, telecommunications, X-ray/material-stream emanations, and telemechanics. A firsthand account of original experimental work given in a 1902 US Patent Office Interference on "individualization" techniques for secure wireless communications, defining the fundamental AND logic gate — an essential component of present day digital computers.

This book is based upon legal records associated with the Tesla vs Fessenden Patent Interference on the Fundamental AND-Gate logic circuit. Tesla discloses new information on the operation of his large high frequency oscillators at both the Houston Street laboratory in New York and the Experimental Station in Colorado. Also included is material on the first practical form of radio-controlled "telautomaton"

## Nikola Tesla CD-ROM Patent Collection

Compiled by  
**Bruce Perreault**

The most complete set of Tesla's Patents available today... it includes *Canadian and British patents* as well as all US patents. Included, is the "High Vacua" Patent that the US and Russia may have referred to for their "death/disintegrator ray" weapons research programs.

Some patents may seem to be redundant. However, these patents contain a more detailed account of Tesla's inventions due to US Patent examiners not allowing Tesla's theoretical interpretations of his inventions—the very heart of Tesla's Technology! Along patents that have US counterparts, are other patents that have never been heard of and may have been lost forever. (CD-ROM)

## Selected Patent Wrappers from the National Archives by **Nikola Tesla**

Twenty of the Tesla patent wrappers have been selected for this publication on the basis of importance and areas of current interest. The patent wrappers, or "patent histories," include all of the background information leading to patent issuance. The subject matter includes mechanical oscillators, turbines, radio, and the transmission of large amounts of energy without wires. The final patents, as issued, are *not* a part of this publication, but all 111 US Patents are included in Nikola Tesla -- Complete Patents. (GBC; 900 pp)

## Tesla's Magnifying Transmitter

The magnifying transmitter (an advanced version of the classic Tesla coil) is a high power harmonic oscillator that Nikola Tesla proposed for the wireless transmission of electrical power. In his autobiography, Tesla states:

*...I feel certain that of all my inventions, the Magnifying Transmitter will prove most important and valuable to future generations.*

In this publicity photo, Nikola Tesla is sitting in the Colorado Springs experimental station with his "Magnifying Transmitter" spewing arcs about 22ft (7 m) long. While it appears quite dramatic, Tesla points out that appearances are deceptive... this is a double exposure.

## COLORADO SPRINGS NOTES 1899-1900

by **Nikola Tesla**

The first edition of the English original and SerboCroat translation of the working diary of Nikola Tesla, the great American scientist of Yugoslav origin, was published on the 120th anniversary of his birth. The diary, written during Tesla's experiments in his Colorado Springs laboratory in 1899-1900, is exceptionally important for a deeper understanding of Tesla's experimental work. The diary notes were handwritten daily from June 1, 1899 to January 7, 1900, amounting to 500 pages and almost 200 drawings. There are also full explanations of 63 photographs illustrating the last stage of the experimental work. The importance of Tesla's diary lies not only in its value for the history of science, but also in the evidence it offers of the work and activities of the great scientist. Tesla's experiments are still relevant for contemporary science, and this accounts for the visits of a great many American scientists to the Nikola Tesla Museum in Belgrade where most of their time was given to the diary. 440pp Hardback

## Tesla's ExtraOrdinary Bladeless Disc Turbines

The Tesla Turbine is a true, highly efficient mechanical transformer of energy that is little understood by orthodox physics. This presentation is a turbine builder's dream that delves into proper Tesla turbine operation and construction techniques. Getting the basics straight is essential to understanding the turbine's operating principles. Tesla's turbine has not achieved its full potential due to a number of myths. No other pump or engine can match the safety, economy, longevity and performance of this truly elegant machine. (221pp)

**310050 - Tesla's Engine ..... 19.95**

## Tesla's Bladeless Turbine

Invented by Nikola Tesla, a Tesla turbine consists of a set of smooth disks, with nozzles applying a moving material such as a gas, to the edge of the disk. The gases drag on the disk by means of viscosity and the adhesion of the surface layer of the gas. As the gas slows and adds energy to the disks, it spirals in to the center exhaust. Since the rotor has no projections, it is very sturdy and easily constructed.

Incredibly the Tesla turbine is the only turbine in the world that can run on a solid (such as sawdust or powdered coal) without damage. Furthermore, the Tesla turbine can run on saturated steam (which makes it ideal for geothermal applications) or be run on liquids.

Finally, the turbine is completely reversible and can be used as a pump. It is particularly useful when you need to move delicate materials without shear forces.

## Building a Tesla Turbine

— by **Vince Gingery** —

Even though the Tesla's 1909 turbine was never commercially available, the turbine nevertheless has generated a great deal of interest the past few years. Vince Gingery built a small, easily built working turbine that will easily turn 5000 rpm. Here you get Tesla background, a copy of the original patent, a description of the invention by Tesla himself, and most importantly, detailed instructions and how-to so that you, too, can build a working miniature.

The turbine is built up from eighteen disks of 20 gauge stainless steel. The rotor slips into a sheet metal housing and fed air through a simple manifold and hardware store piping. Two high speed bearings rated to 30,000 rpm were obtained from different internet sources for \$2-\$3 each. Driven with 85 psi of compressed air, this turbine really whistles. You can build a Tesla turbine. Simply. No hype,! This is how to do it today with minimal tools. If you want to recreate one of Tesla's unusual inventions, this is one to consider. (48pp)

## Breaking Free of the Constraints of Conventional Belief

Presented by

— **Marc Seifer, PhD** —

An Exotic Research 2000  
Conference Presentation

As an elderly man, Tesla discussed controversial topics such as free energy, particle beam weapons, cosmic rays that travel faster than light, a magnifying transmitter to harness cosmic rays, interplanetary communication and a claim that he could transmit energy at twice the speed of light. These exotic inventions interest and fuel free energy researchers' imagination. Tesla's claim of transmitting energy at twice the speed of light put Tesla in direct conflict with Einstein's belief that space was curved. Tesla's unique views on the nature of radioactivity also placed him out of the mainstream scientific world. Simply delusional... or did Tesla have a keen insight into the wheelwork of Nature?

## Tesla's Longitudinal Electricity

A lab demonstration  
video featuring:

Eric P. Dollard  
& Peter Lindemann

If you've ever wondered if there is more to a Tesla coil than just making big sparks then watch this video. Borderland presents a series of experiments providing you with factual data on the reality of Tesla's theories. You will see experiments on: The One-Wire Electrical Transmission System; The Wireless Power Transmission System; Transmission of Direct Current Through Space; and, a novel form of electric light which attracts material objects but repels a human hand! A longitudinal broadcast from Borderland Labs to a nearby beach, using the ocean as an antenna is featured.

These experiments can be reproduced by any competent researcher, there are no secrets here! Today's conceptions of a Tesla Coil provide the researcher with little practical material. Eric Dollard reintroduces the "pancake" Tesla Coils in a series of experiments taken directly from Tesla's work. No modern interpretations needed, they went to the source — and it worked! Construction details are given. If you want to do some exciting, exploratory work into Tesla's theories then this video will give you a great start. (60 min)

## Transverse & Longitudinal Electric Waves

A laboratory demonstration  
with Eric P. Dollard

Eric demonstrates the reality of longitudinal waves and their application to the natural transmission of electricity. Analog computers (networks of coils and capacitors) are presented opening up an entire new field of electrical researches into the wave forms discovered and used by Tesla in his wireless power transmissions. You will experience the physical functions of the various waves via direct measurement inside the computer network. The Longitudinal Magneto-Dielectric wave is shown to have a propagating velocity greater than the speed of light! The transverse electromagnetic wave, (in present use) is shown to be a retarded, unnatural form of energy transmission. A Multi-Pactor Orgone Detector is demonstrated indicating a relationship between dielectricity and orgone. A competent researcher can duplicate the experiments on this video from the information given. Amaze your science teacher! (50 min)

## The Homopolar Handbook

### A Definitive Guide to Faraday Disk & N-Machine Technologies

by **Thomas Valone**

The rotating disk dynamo has mystified every scientist since Faraday's 1831 discovery. Also called a unipolar generator (or N-Machine by Bruce DePalma), its efficiency is often known to be above 95% in commercial models. Tesla's "Notes on a Unipolar Dynamo", Tewari's Space Generator, the Trombly-Kahn patent and more are included. Can the homopolar generator become a self-running free energy machine? A unipolar dynamo is so simple that even the earth's core has one, so powerful that it forges metal alloy billets and can launch a railgun! This book has all the history, operating principles, construction details, and pictures of this unique, mysterious generator, so the reader can reach an informed conclusion. No library of free energy research is complete without a copy! (Perfect, 192p)

## The Secret of Light

by **Walter Russell**

*Today's civilization has advanced far in knowing HOW to deal with matter but we do not know WHAT matter is, nor the WHY of it. Nor do we know what energy, electricity, magnetism, gravitation and radiation are. Nor do we know the purpose of the inert gases and what they are. Nor do we know the structure of the elemental atoms nor the gyroscopic principle which determines that structure. Nor are we aware of the fact that this is a two-way continuous universe of balance in all effects of Motion and not a one-way discontinuous universe...* Russell presents an alternative perspective on chemistry and physics more accurate than classical models! ## Harnessing Cosmic Energy

by **Bruce Perreault**

TH Moray's research involved the direct application of Radiant Energy to the ultimate electric particles of the atoms/molecules of the Universe. One of his prototypes measured about 42"x 26"x22" and weighed less than sixty pounds. It generated about 4KW of electrical power. Demonstrated in front of scores of witnesses... it was bitterly opposed by the entrenched economic interests. Radiant Energy is said to be the "Holy Grail of Free Energy," and those who wish to study this exciting subject will do well to give serious attention to Dr. Moray's original discoveries and to Perreault's recent research. ## Energy Machine of T. Henry Moray

Zero-Point Energy & Pulsed Plasma Physics

by **Moray B. King**

In the 1920s Moray invented a "free energy" device that produced 50 kW of electricity. Unexplainable by orthodox science, the electricity exhibited a strange "cold current" characteristic where thin wires could conduct appreciable power without heating. Moray suffered ruthless suppression. In 1939, the device was destroyed. Today, modern physics finally recognizes the vacuum contains tremendous energy called *zero-point energy*. Other inventors have discovered it is activated by pulsing plasma, and created novel energy devices, but they too were suppressed. The common pattern of these technologies clarified the fundamental operating principle. Free energy that works! Truly an inspiration for engineers and inventors (200pp)

## Free Energy Secrets of Cold Electricity

This amazing technology remained shrouded in mystery until Sep 2000. This video is the complete technical lecture given by Dr. Peter Lindemann at that time. In it, he explains exactly how Ed Gray's system works, how he produced "cold electricity" and how that relates to Nikola Tesla's earlier discovery of "Radiant Energy". ## Tapping the Zero Point Energy

Free Energy in Today's Physics

by **Moray B. King**

Free energy and anti-gravity are possible. The theory of zero point energy posits that there are great fluctuations of electrical field energy embedded within the fabric of space. For instance... TH Moray produced a 50KW free energy machine in 1930 and the Pons/Fleischmann cold fusion experiment produced tremendous heat without fusion.

Engineering Principles for Free Energy

by **Moray B. King**

Free energy and anti-gravity are solutions to the world's energy crisis. Zero-Point Energy technology can transform our earth to a self-sustaining, pollution-free planet. Zero Point Energy theory maintains that fluctuations of electrical field energy are embedded in the fabric of space. By identifying the densest energy and using today's technology to balance energy flow, we can acquire energy which doesn't deplete Earth. Filled with diagrams, patents, and photos, it covers: Fundamentals of Zero Point Energy, Vacuum Energy Vortices, Super Tubes, and Charge Clusters.

by **David Thomson & Jim Bourassa**

For the first time in history, a scientific foundation for God's existence is presented and supported by the same empirical data physicists use everyday. Through a simple observation noted 100 years ago by Charles Coulomb, the electromagnetic units have been corrected of an error that has led physics astray for so long. Now, electrodynamics can be expressed in simple dimensional equations, the neurosciences can now be united to quantum and classical physics, and the precise geometry of subatomic particles can be modeled.

## Unification of Strong Gravitational & Electric Forces

— by **Vladimir Ginsberg** —

The strong force is merely a manifestation electric force, both qualitatively and quantitatively. This book expands the concept of the spiral field that leads to the unification of strong electric, and gravitational forces. A presentation discusses the new prime elements of Nature, the torix and the helix, which are based on positive and negative energy. Matter, ether, electromagnetic waves, and neutrinos are described by the very same fundamental equations. Ginsberg's unification of strong, gravitational, and electric forces confirms a possibility of instantaneous transmission of waves. Furthermore, it identifies likely candidates for "dark" matter, while outlining a road map for the unified field theory. Well illustrated, this book explores the leading edge of physics. (280pp)

## Scalar Waves

**From an extended vortex and field theory to a technical, biological and historical use of longitudinal waves.**

by **Prof. Dr. Konstantin Meyl**

From Maxwell's field equations, only transverse (Hertzian) waves can be derived, whereas the calculation of longitudinal scalar waves gives zero as a result. This is a flaw of the field theory, since scalar waves exist for all particle waves. Starting from Faraday's discovery, an extended field theory is derived, which goes beyond Maxwell's theory with description of potential vortices (noise vortices) and their propagation as scalar waves, containing Maxwell's theory as a special case. With that, the extension does not contradict conventional textbook physics. Besides the mathematical calculations, this book contains technical information on scalar waves for such uses as parallel image transmission, and also addresses critical questions of the environmental compatibility.

## Transcending the Speed of Light:

Consciousness, Quantum Physics, and Fifth Dimension

by **Marc Seifer, PhD**

The space-time continuum of scientists generally ignores the realm of the mind, though phenomena such as imaginary numbers, used by Einstein to combine space with time, are concepts that only exist in the mind. The inadequacy of four-dimensional models to account for our experience of mental phenomena points to the consciousness of the mind as a higher organizing principle, a fifth dimension where thoughts are as real and quantifiable as our physical world. Thought enables us to move backward and forward through time--reflecting on the past and making plans for the future--this fifth dimension of mind breaks the laws of relativity, thereby transcending the speed of light. This study includes relativity and ether theory and much more...

## The New Paradigm:

A Confrontation Between Physics and the Paranormal Phenomena

— by **John O'M. Bockris** —

Dr. Bockris' landmark new book is by far the best we've seen on this subject. He attacks the current paradigm from all angles, and reviews well-documented phenomena which are difficult or impossible to explain with current scientific thought. Bockris proposes a new paradigm which doesn't serve science as we now know it, but rather encompasses the known and "unknown" around us to give a better understanding of the true nature of reality. ## Creation The Physical Truth

— by **Harold Aspden** —

What is the physical truth about creation, and how do we develop the 'theory of everything' to explain it? In *Creation*, Aspden deciphers in physical terms nature's messages, as coded in the numerical values of the fundamental physical constants. His account tells us how the primary particle of matter, the proton, the nucleus of the hydrogen atom, is created and how stars are formed, and explains why matter is subject to the force of gravity. The result reveals evidence that challenges many astrophysical notions. It warrants attention as it may reveal how to bring that omnipresent energy source into the realm of technology at a time when it is most needed. Only by understanding how forces of nature generate a state of spin in the aether may we see how to extract its energy.

## Forbidden Science From Ancient Technologies to Free Energy — Edited by J. Douglas Kenyon —

This book reveals how orthodox science disallows inquiry that challenges the status quo — even with verifiable results.

It highlights cutting-edge, heretical, suppressed scientific research by researchers including Immanuel Velikovsky, Nikola Tesla, Rupert Sheldrake, and Masaru Emoto. It explores science and technology that has been suppressed by the orthodox scientific community-- from the true function of the Great Pyramid and the megaliths at Nabta Playa to Velikovsky's insights, free energy from space, cold fusion, and Sheldrake's research into telepathy and ESP.

There is an organized war going on in science between materialistic theory and anything termed spiritual or metaphysical. The absolute skepticism of the scientific establishment is detrimental to scientific inquiry that thinks outside the box. This mentality is interested in preserving funding for its own project. From Tesla's AC to Schoch's re-dating of the Sphinx, this is a compelling intro to the true history of alternative original research.

## Seven Experiments That Could Change the World

A Do-It-Yourself Guide  
to Revolutionary Science  
— by **Rupert Sheldrake** —

In the past, most scientific research was carried out by amateurs; and amateurs, by definition, are people who do something because they love it. And although amateur naturalists and freelance inventors still exist, they have been marginalized. I envisage a complementary relationship between non-professional and professional researchers, the former having a greater freedom to pioneer new areas of research, and the latter a rigorous approach, enabling new discoveries to be confirmed and incorporated into a growing body of science solving our most fundamental problems.

## Alternative Science

Challenging the Myths of  
the Scientific Establishment  
— by **Richard Milton** —

This tour of anomalous research makes clear what the establishment denies: plenty of hard experimental evidence already exists for cold fusion, paranormal phenomena, bioenergy, and the effectiveness of alternative medicine. Because these subjects and their investigators are continually denied legitimacy by the “paradigm police,” the public is led to believe that all claims made about such topics are completely groundless. In many instances, the scientific orthodoxy acts with rigidity in the face of the evidence. Faraday, Roentgen, Edison, and even the Wright Brothers were thought to be charlatans by their contemporaries. The reader can only wonder if there is not something fundamentally wrong with the way that science is currently being practiced.

## A Thousand and One Formulas

— by **Sidney Gernsback** —

Back in 1920 people were hot to set up their own labs, invent something and become rich. Here are formulas on cements and glues, compositions of all kinds, inks, glass and glass working, leather polishes, metal-craft, perfumes, soaps, photography, blueprint and other papers, plating, pyrotechny, polishes and stains, varnishes and paints, cleaning compounds, wood-craft, chemical lab hints, mechanical lab hints, electrical lab hints, miscellaneous formulas and an appendix. A lot of this is quaint—not directly useful. It's for kitchen chemists. But a few of the formulas and ideas are worth the entire book. If you're trying to build a reference library of unusual secret formulas, this book is certainly worth considering. (160 pages)

## Old Time Secrets of Making Permanent Magnets

Anthology of simple techniques used over centuries to create powerful permanent magnets.

Permanent magnets are used on a number of devices including magnetos, tools, telephones, instruments, switches, etc. Extensive use of permanent magnets, together with scientific methods of manufacturing them, has come about only recently. Ten years ago, the production of permanent magnets was an obscure branch of manufacturing... today it is one of the important phases of the steel-working industry. Every plant making magnets has its own manufacturing process, but the underlying and fundamental principles to produce successful magnets are the same in all.

## General Chemistry

— by **Linus Pauling** —

When it was first published, this first-year chemistry text revolutionized the teaching of chemistry by presenting it in terms of unifying principles instead of as a body of unrelated facts. Those principles included modern theories of atomic and molecular structure, quantum mechanics, statistical mechanics and thermodynamics. In addition, Dr. Pauling attempted to correlate the theories with descriptive chemistry, the observed properties of substances, to introduce the student to the multitude of chemical substances and their properties.

The principles of quantum mechanics are discussed on the basis of the de Broglie wavelength of the electron. Statistical mechanics are introduced before thermodynamics, and the discussion of thermodynamics is based on it. This arrangement reflects the author's belief that beginning students can better understand statistical mechanics than they can chemical thermodynamics.

Aimed at freshman college students planning to major in chemistry or related fields, the book is written in a logical, clear and understandable style. In addition, many excellent figures are included, along with numerous problems and 75 pages of appendixes covering such topics as symmetry of molecules and crystals, hybrid bond orbitals, and magnetic properties of substances. ## The Pirotechnia of Vannoccio Biringuccio: The Classic Sixteenth-Century Treatise on Metals and Metallurgy

— by **Vannoccio Biringuccio** —

Vannoccio Biringuccio, a metallurgist and armament maker from Siena (Italy), wrote history's first clear, comprehensive work on metallurgy. First published in 1540, shortly after Biringuccio's death, *The Pirotechnia* is a lavishly illustrated volume that describes in detail the equipment and processes of 16th-century mining, smelting and metalworking. For centuries, this famous work has been a standard reference in the field of metals and metallurgy. Especially valuable today as a vital source of information on the state of technology in the 15th and 16th centuries, the book first addresses the principal ores (gold, silver, copper, lead, tin and iron) and the making of steel and brass. It then introduces semi-minerals, from quicksilver and sulphur to manganese and rock crystal, and describes the assaying and preparing of ores for smelting. Other topics include alloying, the art of casting, methods of melting metals, and the making of fireworks. (512pp)

**WARNING: ALL GEET Plans are considered experimental! No guarantees are made as to their accuracy or feasibility!**

***This retrofitted Suburban was driven 3 times across the US!***

High gas prices and pollution levels are a modern plague... and GEET is the solution. Engines running on GEET technology have consistently shown tremendous reductions in emissions. Early efforts for this ground-breaking technology centered on small engines. Now, plans are available for automobiles. Purchase your set of *GEET Fuel Processor* plans and build a GEET for your automobile engine. Replacing a catalytic converter or some expensive air pollution control device? Now is an excellent time to consider installing a GEET device. Plans include a license to build and install one device (GEET is a patent-protected technology). These Official GEET Fuel Processor Plans are for **personal use only!**

**Up to 20 Horsepower**

This lawnmower was retrofitted with GEET device built from the plans.

Purchase your own set of *GEET Fuel Processor* plans and build your own GEETs for small generators and lawn mowers to operate on a variety of fuels. Initially, use conventional fuels, such as gasoline, diesel, kerosene... as you gain experience, get creative by using used engine oil, transmission fluid, crude oil, and other exotic mixtures. You will see increases in the efficiencies of conventional fuels 2 to 3 times and a **reduction in pollution in the range of 90 to 97%**. This GEET device is the easiest to build. ## Deluxe GEET Plans

— by **Paul Pantone** —

GEET technology is the independent homeowners dream come true. Through the use of GEET technology, a lot of waste materials become valuable fuel... even the lowly septic tank becomes a fuel source! This means significant savings over conventional technology.

For gas engines using gasoline as the primary fuel, you will be able to use "junk" fuels in conjunction to stretch out fuel

supplies. However, heat is one of the main elements in the GEET reaction process and until the reactor is warmed up, the engine is running on whatever fuel you feed it. You must start the engine on something that it will run on, like gasoline, propane, or even GEET Gas from a previous run (storage tank and pump setup). Once warmed up, you can switch over to the junk (alternate) fuel.

Small engines can be retrofit for as little as \$20 to \$30 ... automobiles for as little as \$75. Depending on your tools, skill level, and how much you need to farm out, small engines average \$50 to \$75, and autos average \$200 to \$1,000.

The Deluxe GEET Plans shows how to make GEET Gas to run an entire home... heating, refrigeration, stoves, and power. It includes license to retrofit TEN cars, **the GEET Furnace Plans**, the GEET Tulare DVDs, and Paul's presentations at the 2009 ExtraOrdinary Technology Conference (3 DVD set)! Convert your homestead to GEET today...

The Original All-In-One Formula

## Synthetic Lubricant Concentrate

*Liquid Ring* brings back power and performance to a worn, weak engine while reducing emissions at the source. Its innovative Lube-Logic multi-action formula senses and adapts to your engine's performance needs for high or low mileage engines. First, the formula builds up compression and stops smoking that occurs due to worn engine parts such as pistons piston rings, and cylinder walls. Then, its protective coating becomes bonded and does not drain back into the oil pan when the engine is off. (*Liquid Ring* does not contain Dupont teflon.)

Easy to apply, *Liquid Ring* can be used as strictly an occasional engine overhaul treatment or for smog reduction. When used as a smog reducer (preferred method), one will constantly reap overhaul treatment benefits. As long as *Liquid Ring* is in the engine, the catalyst will help reduce smog.

## FLUID RX

The "One Drop Oil Test!"

**Fluid Rx Instant Lubricant Test** is a patented fluid test that measures the amount of sludge in a lubricant or oil. **Fluid Rx** testing provides simple and accurate verification that a fluid should be changed! Simply place a drop of the sample fluid or lubricant on the **Fluid Rx** tester (filter paper) then compare the findings to the **Fluid Rx** ISO analysis chart. In seconds **Fluid Rx** provides an analysis of the sample.

The kit can test six types of fluid/lubricants:

- Crankcase Motor Oil • Brake Fluid
- Power Steering Fluid • Transfer Case Gear Oil
- Transmission Fluid • Differential Gear Oil

As fluid test specimens percolate through the unique Fluid Rx filter paper, bands and/or zones of different colors, densities, even unwanted wear metals and debris form a chromatogram. Changes in the appearance of the zones or bands are a clear indication that something in the lubricant has changed. A closer look at the zones, their unique formation, and the debris fields contained therein reveal high particle counts that can be correlated to ISO Code. Fluid Rx chromatograms provide a measure of sludge and dispersant properties that is correlated to laboratory analysis: **New/Good, Change, Bad**. Simply compare the Fluid Rx chromatogram to the Fluid Rx ISO analysis chart.

Each kit contains instructions, ISO comparison charts for the six fluids, and materials for six tests of each fluid. Additional sheets of Motor Oil Test Pads are available. Each sheet is good for 6 tests.

# Anti-Gravity & Other Research

## Tesla, UFOs, and Classified Aerospace Technology Secrets of Antigravity Propulsion by **Paul A. LaViolette, PhD**

Learn the secret history of antigravity experimentation -- from Nikola Tesla and T. Townsend Brown to the B-2 Bomber. The existence of advanced gravity-control technologies, under secret military development for decades is revealed. Included among the secret highlighted projects is Project Skyvault's attempt to develop an aerospace propulsion system using intense beams of microwave energy similar to that used by the strange crafts seen flying over Area 51.

Using subquantum kinetics (the science behind antigravity technology) -- LaViolette reviews numerous field-propulsion devices and technologies that have thrust-to-power ratios thousands of times greater than that of a jet engine and whose effects are not explained by conventional physics and relativity theory. Controversial evidence about the NASA cover-up in adopting these advanced technologies, Russian research to duplicate Searl's levitating disc and the Podkletnov gravity beam experiment are covered.

## The Hunt for Zero Point Inside the Classified World of Antigravity Technology Written by **Nick Cook**

This riveting work of investigative reporting and history exposes classified government projects to build gravity-defying aircraft—which have an uncanny resemblance to flying saucers. The atomic bomb was not the only project to occupy government scientists in the 1940s. Antigravity technology, spearheaded by scientists in Nazi Germany, was a high priority that still may be in effect today. Now for the first time, a reporter with an unprecedented access to key sources in the intelligence and military communities reveals suppressed evidence that tells the story of a quest for a discovery as powerful as the A-bomb. Cook explores scientific speculation that a "zero point" of gravity exists in the universe and can be replicated here on Earth. The pressure to be the first to harness gravity is immense, as it means having the ability to build military planes of unlimited speed and range, with the most deadly weaponry the world has ever seen. This is the heart of the twentieth century's most puzzling unexplained phenomena.

## Electrogravitics II

Validating Reports on a New  
Propulsion Methodology  
by **Thomas Valone, MA, PE**

The scientific validation of a science that connects gravity to electricity faces an uphill, skeptical battle. This publication confronts the skeptics directly with articles by the Army Research Lab and Honda Corporation on their experiments and theory of how electrogravitics work, besides patents by NASA and others. The discovery of a classical "electrokinetic field" equation that predicts how and why pulsed electro-gravitics will work is introduced. The T.T. Brown experiments which led to the "Biefeld-Brown Effect" actually comprise electrogravitics and electrokinetics.

## SS Brotherhood of the Bell The Nazis' Incredible Secret Technology

— by **Joseph P. Farrell** —

In 1945, a mysterious Nazi secret weapons project code-named "The Bell" left its underground bunker in lower Silesia, along with project documentation, and a four-star SS general Hans Kammler. Taken aboard a massive six-engine Junkers 390 ultra-long range aircraft, "The Bell," Kammler, and all project records disappeared completely. It is thought to have flown to America or Argentina. As a prelude to this disappearing act, the SS murdered most scientists and technicians involved with this secret weapon that according to one German Nobel prize-winning physicist, was classified as "decisive for the war," a security classification higher than any other secret weapons project in the Third Reich, including its atomic bomb. Learn what "The Bell" was and the new physics that might have been discovered with it. How far did the Nazis go after the war to protect the advanced energy technology? (456 pp)

## Secrets of the Unified Field

The Philadelphia Experiment, the Nazi Bell and the Discarded Theory

— by **Joseph P. Farrell** —

In this long-awaited sequel to THE SS BROTHERHOOD OF THE BELL, alternative history and science researcher Joseph P. Farrell examines what the two biggest secret projects of World War II had in common. Rejecting the nonsense that has become associated with both projects, and documenting his case solely from scientific sources, newly discovered declassified War Department documents, and eyewitness testimonies, Farrell maintains that both projects originated in careful consideration of Einstein's celebrated and now discarded Unified Field Theory. American and German wartime scientists and engineers determined that, while the theory was incomplete, it could nevertheless be engineered. (340pp)

## Flying Saucers & Science A Scientist Investigates the Mysteries of UFOs

— by **Stanton T. Friedman MSc** —

A nuclear physicist, Stanton Friedman has distilled more than 40 years of research on UFOs, and shares his work on a wide variety of classified advanced nuclear and space systems. He answers physics questions in plain English, and establishes that travel to nearby stars is within reach without violating the laws of physics. Photographs of little known, far-out advanced propulsion systems, on some of which he worked, are included. He clearly shows that government policy on this subject has been to provide false, misleading claims and disinformation, and establishes that the subject truly represents a Cosmic Watergate. Intriguing data from a number of large-scale scientific UFO studies that almost no one has discussed in detail is presented. Friedman unveils the SETI program, the saucer conundrum and lots more! ## Weather Warfare The Military's Plan to Draft Mother Nature

— by **Jerry E. Smith** —

This follow-up to *Haarp: The Ultimate Weapon* covers the 130-year history of military, scientific and commercial efforts at controlling Mother Nature. The furor over cloud seeding above the Ho Chi Min Trail during the Viet Nam War lead to a 1978 UN treaty banning the use of all environmental processes (weather, earthquakes, tidal waves, etc.) as weapons of war. After signing that treaty US research allocations dropped from \$140 million a year to zero - did Uncle Sam really abandon this research, or did the whole program go "black"? Smith also cover "chemtrails" focusing on "geoengineering" - a scheme to use particles intentionally released into the upper atmosphere to mitigate global warming. All this and much more! (402 pp)

## Hitlers Suppressed & Still-Secret Weapons Science & Technology

— by **Henry Stevens** —

Now we know what spooked the Allies in the closing months of the war and why they were in such a panic to win quickly. The Allies assembled intelligence reports of supermetals, electric guns, and ray weapons able to stop the engines of Allied aircraft in addition to their worst fears of x-ray and laser weaponry. Then there were the reports of structured bombs of nipolit, N-stoff bombs, cold bombs, oxygen bombs which destroyed all life, atomic bombs and rumors of the mysterious molecular bomb. This book documents very large mystery rockets under development in Germany, far beyond the V-2. Very exotic technologies are discussed including refining crude oil with sound waves, gasoline for 11 cents/gallon, penicillin substitutes, experiments in time, sustained fusion reactions, zero point energy and deep space travel.

### Cross Currents

The Perils of Electropollution  
The Promise of Electromedicine

— by **Robert O. Becker, MD** —

*Cross Currents* describes the meeting of two opposing trends: the rapid rise of electro-medicine, which promises to unlock the secrets of healing, and the parallel rise of electropollution which poses a pressing environmental danger.

The first is a story of hope and possibility, the second a cry of alarm. Together, they reveal a link between human health and our environment. The concept of "life energy" is traced to its roots in Western history, showing how early medicine became Scientific Medicine and then Technological Medicine with life reduced to chemistry and humans to machines! Dr. Becker recounts the development of EnergyMedicine and its promise. Electromagnetism's dark side is explored with a chapter devoted to individual countermeasures that will help reduce the effects of electropollution. (336 pp)

### The Body Electric

Electromagnetism  
and the Foundation of Life

— by **R. O. Becker & Gary Selden** —

*Body Electric* tells the fascinating story of our bioelectric selves. Dr. Becker, a pioneer in regeneration, challenges the established mechanistic understanding of the body. Clues to the healing process were contained in the discarded 18th century vitalist theories based on the premise that *electricity* is vital to life.

Despite the hope and promise of Becker's work—the possibility of regenerating human limbs and organs has raised the hackles of establishment physicians. As his understanding of electrical forces led him to alert the public to the possible effects of these forces on the environment, the establishment erected a much even higher wall of resistance. He also explores new pathways for the understanding of evolution, acupuncture, psychic phenomena, and cancer. (352 pp)

## SuperLight and Other Forms of Magnetic Energy

Presented by **John Milewski, PhD**  
A 2009 ExtraOrdinary Technology Conference Presentation

SuperLight is magnetic light... *magneto*-electric radiation whereas regular light is electric light or *electromagnetic* radiation. SuperLight is the unseen force in nature that has been ignored by science but real to metaphysicians for thousands of years. It was identified scientifically over 100 years ago when James Clerk Maxwell solved his famous wave equation. Positive numbers in Maxwell's Equations explains radio waves and also all forms of electromagnetic radiation such as light, radio, TV, x-rays, etc. What his equation also explains is *SuperLight*... the solution that comes from the use of negative numbers (ie the imaginary part prominent in electromagnetic analysis)! Applications for superlight include magnetically activated water, accelerated plant growth, growing gold, and a likely source of unlimited, nonpolluting energy!

## Decoding the Human Body-Field

### The New Science of Information as Medicine

Peter Fraser, Harry Massey & Joan Wilcox

This work introduces a revolutionary system that reestablishes the proper flow of information to the body's energetic fields to promote health. After decades of research, a system emerges that unites the meridian system of traditional Chinese medicine with quantum wave theory to provide the first link between the human body's biochemistry and bioenergetics. Everyone has a body-field based on twelve meridian-like channels that process and coordinate information throughout the body. Our health depends on the proper flow and communication of information through these channels. Infoceuticals--liquids infused with organic colloidal minerals imprinted with corrective quantum electrodynamic information -- correct distortions and blockages in the information flow of the body-field.

## Bypassing Bypass

The New Technique of Chelation Therapy

— by **E. Cranton, MD** —

Over 40 million men/women suffer with symptoms of America's Number One killer disease—1 million people die annually. But there is a nonsurgical method for treating clogged arteries that clears out all of the arteries—and it is a lot less expensive than bypass surgery. This noninvasive technique is called CHELATION THERAPY! Dr. Cranton clearly explains new concepts relative to aging and atherosclerosis. He has a plausible hypothesis to explain how and why EDTA works (ie alleviates angina pain, decreases shortness of breath and fatigue in patients with coronary artery disease). (265 pp)

## Politics In Healing Suppression and Manipulation of American Medicine

— by **Daniel Haley** —

Political patterns of misuse are seen through ten stories of little-known healers of the 20th century. Many of them produced breakthroughs of Nobel Prize quality. Most of these therapies are no longer available to help with our numerous health challenges - not because they didn't work, but for political reasons. Should we fail to act, to right the wrongs Haley documents in this book, we will certainly pay our dues in unnecessary suffering and expense.

## Hidden Nature The Startling Insights of Viktor Schauberger

— by **Alick Bartholomew** —

**HIDDEN NATURE** is about Victor Schauberger (1885-1958) who pioneered a new understanding of the Science of Nature, rediscovering its primary laws and principles, unacknowledged by contemporary science. From studying the fast flowing streams of the unspoiled Alps, he gained insights into water as a living organism. He showed that water is like a magnetic tape; it can carry information that may either enhance or degrade the quality of organisms. Our failure to understand the need to protect the quality of water is the principle cause of environmental degradation on the planet. Schauberger warned of climatic chaos resulting from deforestation and called for work with free energy machines and energy generation. Includes information of Schauberger's flying saucer designs. Chapters include: Schauberger's Vision; Different Kinds of Energy; Attraction & Repulsion of Opposites; Nature's Patterns & Shapes; Energy Production; Motion, Key to Balance; Atmosphere/Electricity; The Nature of Water; Hydrological Cycle; Formation of Springs; How Rivers Flow; Supplying Water; The Role of the Forests; Tree Metabolism; Soil Fertility and Cultivation; Organic Cultivation; The Energy Revolution; Harnessing Implosion Power; Viktor Schauberger & Society; more. You *can* have good teeth without fillings, and other expensive dental procedures. Tooth decay is not "just a matter of genetics," it is nutrition and what contacts the teeth. Bacterial decay has almost nothing to do with it. Anyone who could never afford dental work can retain their teeth without going to a dentist by following a simple prescription. Brain ailments such as Alzheimers, hallucinations, epileptic seizures, and MS are linked to dentistry with its fluoridation, mercury and other schemes. Those desiring info on how to avoid and overcome these illnesses need this book!

**700019- Good Teeth: Birth-Death ..... 15.00**

Dr. Gerard Judd at the  
**Exotic Research Conference 2001**

Applied chemical knowledge can define and solve many problems created due to ignorance of the chemistry involved. His chemical analysis approach in tooth decay, led to Dr. Judd's discovery on how everyone could end all tooth cavities and gum infection throughout their entire life. It's a simple, almost costless procedure! Become an expert on teeth by listening to his lecture and reading his book. **Don't believe that "authorities" always act in YOUR best interests!** A society armed with this knowledge, coupled with diligent use, would usher in real prevention!

(1987-2002)

The Global Sciences organization was founded in 1983 by Dean Stonier with the intent to promote the understanding and integration of body, mind and spirit as well as the mysteries which surround us in daily life such as UFO's, crop circles, spiritual growth and ascension, alternative healing modalities, suppressed technologies, mind control, shadow government/one-world conspiracies. Eventually this resulted in two national conferences each year, typically Florida in the Winter and Denver in Summer. Dedicated to bringing you the latest information which is crucial during these exciting times here on planet Earth, these congresses were considered the premier events of the alternative world for nearly two decades!

## ORDERING INSTRUCTIONS

**Please include your phone number and/or email address!** This helps us to contact you in the event of a discrepancy or problem. Your privacy and confidentiality will be respected otherwise. It has always been, and always will be, our policy to NOT sell our membership and customer mailing lists.

**Send special questions and comments** on a separate piece of paper, so that the processing of your order is not slowed down. Although we may not be able to respond to your comments directly, we do welcome them and read every one of them—and often, changes and new books are the result of an inquiry. Technical questions are usually better handled if directed to our magazine, **ExtraOrdinary Technology**, as a “Letter to the Editor.”

**We attempt to keep all books in stock.** However, there are occasions when demand outpaces supply. Accounts are credited at the time an order is placed. If a book is out of stock, it will be backordered and sent to you as soon as it arrives. If a book has been discontinued, a refund will be sent immediately.

**We try to keep Shipping and Handling charges as low as possible.** The US Postal Service's constant rate changes have destabilized our shipping rates. Currently, in our most recent shipping schedule, we have decided to ship *ALL* books by priority or air, unless postage costs exceed ship/hand rate. We are looking into UPS as an option... but they do not deliver to PO Box addresses.

**We have a variety of payment options.** In addition to the major credit cards shown, we also accept checks, PayPal, money orders and cash in US dollars.

**Dissatisfied?** If there is a problem with your order, please notify **TeslaTech, Inc** at **(520) 463-1994** immediately.

***Thank you for your support!***

## THE SECRET OF ARMY MUSCLE

*A TECHNOLOGY SO **POWERFUL**, IT SURPASSES U.S. ARMY STANDARDS!*

*"There are electrical biological circuits running through our bodies. It's a fact that energy flows in our connective tissues as well as in our nervous system. LifeWave technology uses the signaling properties of light to harness the communication properties of the body's built in circuits."*

- Dr. Steven Haltiwanger, MD,CCN, LifeWave Health & Science Director

**What if** there was a way to increase your body's energy levels, relieve pain, improve sleep, and even slow down the aging process all with light?

It has been known for thousands of years that specific frequencies of light can produce specific changes within the human body. One frequency of light **CAUSES** the body to make Vitamin D, another **CAUSES** the body to have a tan (melanin production).

David Schmidt – the inventor of LifeWave Technology – has unlocked the secret of how to create passive devices that reflect specific wavelengths of light for producing specific biological responses. The answer is in a non-transdermal patch. Place a specific patch on your body, and the patch starts to emit specific wavelengths of light that can improve energy flow, relieve pain, and dramatically elevate antioxidant levels for powerful anti-aging effects.

### Just how powerful is LifeWave Technology?

It is a United States Army initiative that by the year 2025 all active military personnel in the United States will be taking a daily supplement of Glutathione and Carnosine. Why? Both Glutathione and Carnosine levels are directly correlated with muscle size and muscle growth. Put more of these nutrients in your body, and you get more muscle size and muscle growth. The US Army cannot do this today, because pills and drugs simply **CANNOT** achieve the results that they are looking for.

Enter LifeWave Technology. Not only do LifeWave Glutathione patches meet current U.S. Army goals, but LifeWave patches **EXCEED** what the U.S. Army has planned 15 years from now! As an example, Clinical studies prove it: in just **ONE DAY**, the LifeWave Glutathione patch was able to elevate Glutathione levels by a whopping **300%**! (as compared to only 14% by using a pill)

**So don't wait until the year 2025. Get technology fit for the US Army.  
The future is here today with LifeWave!**

## **INTERNATIONAL INSTITUTE**

Greetings from Paul Pantone and the GEET International Institute,

Hoping you and your family had the best of Holidays! 2010 is here and it is time to ring in the New Year. What better way than with the knowledge to reduce your carbon footprint while keeping money in your pocket. It's that time and GEET is in full swing! Look no further; what you all have been waiting for is back and ready for action!

GEET International Institute is dedicated to educating the public. As a result, we are happy to tell you we have a resource specifically for you. Go to [www.GEETINTERNATIONAL.com](http://www.GEETINTERNATIONAL.com) and check out our website! We are making updates, revisions, and corrections to better suit your needs. Check frequently for updates, always ask questions, and feel free to comment. Feedback is welcome. The main focus of me, Paul Pantone, and the GEET International Institute is now research and development. I want to make sure that every product a dealer offers is approved by me; by specific testing to be done at my new facilities in Oklahoma. The GEET classes may be over but there are better things to come. There is a way out of these more trying times we face, and we are here to help. We are not the only people ready to help. There are people all over the world ready to help. There will be schools opening in Europe and Australia. As well as the opening of the GEET Dealers Association of America later this month. For additional information about the GEET Dealers Association of America visit their website at [www.GEETDEALERSASSOCIATION.com](http://www.GEETDEALERSASSOCIATION.com).
